(Jun 13, 2015 10:11 AM)Alside Wrote: [\[CITE\]](#) I have received a copy of this ebook and here is my review on it.

Quality: 10/10

The ebook definitely gains marks in the aesthetics department. It has a simple clean look to it. No unnecessary fluff. There are ample pictures to go along with the instructions so you should have no trouble following the instructions.

Method Effectiveness: 9/10

This ebook has 7 different methods you can use to make bitcoin. Some involve investment well others do not. So even if you have no bitcoin to start these methods do not fret! These methods are all effective as long as you use them properly and do not get greedy.

Grammar: 9.5/10

There were almost no grammar mistakes. There was just a few small punctuation errors. Nothing that hinders the legibility of the ebook though.

Ease of use: 10/10

These methods can be done by literally a 5 year old. And if you are on this forum you are at least 13 years old so you guys should have no trouble doing these methods. Half of the methods are autopilot which makes things easy for you while the other half are so easy you would need to be brain dead not to do them correctly.
