If the highest number of awards can go to a member that once had them, then that member would be Snorlax. He's banned now but he once had all of the awards.

More of a technicality though, it was actually kind of a "fuck you" because snorlax upset omni. On that note, omni once had 10k+ rep, although it was just something he was messing with of course. . Or at least I'm preeetty sure it was him.

A few typos :b you fixed the "Resitge" but now it's "Pestige" xD

Also, url coding is a bit shabby in two spots.

Other than that, I dig it ?

We all know who the number 1 l33t is, lets just fill that in.

**Black Shadow** - June 15, 2015, 6:19 pm

Dr. Ph1sh was the first official Ub3r here is the original thread with the list.

<https://hackforums.net/showthread.php?tid=207751>

His account has now gone but this list was put up in order in the first couple of hours of it coming out.

I was number 6 at that time but now on the awards page I am number 4

On the reputation part it say HIGHEST negative reputation, it should be LOWEST negative rep. If it was the highest than anyone with -1 rep would be the highest
