Thread: [3 Char/Letter Outlook Emails \(UPDATED\)](#)

Freaky - June 14, 2015, 5:13 am

So I saw someone trying to sell 3 letter @outlook.com emails for a couple of dollars each, I decided I'd get some for myself but there's way too many available.

Here's a list, feel free to create whatever you want, let me know which you create so I can remove it from the thread. A thank you would be highly appreciated.

Almost all of the 3 letters are taken, these are the only ones that are available.

I don't know why people want these, I just saw someone trying to sell 3 letters for a couple of dollars, so I decided to give out a list of available usernames.

Create it, it's available to be created unless someone else has created it since I posted this thread.

(Jun 14, 2015 06:22 AM)chuksy Wrote: [\[CITE\]](#) Is this outlook emails already paid for?

What does that even mean...

If you'd like to get one of these emails, all you have to do is go to hotmail.com, sign up for an email and put the username as the one you want from the list.

chuksy - June 14, 2015, 6:29 am

I mean I am trying to figure out what is so special about these three letter outlook emails that someone is selling for some dollars

Freaky - June 14, 2015, 6:35 am

(Jun 14, 2015 06:29 AM)chuksy Wrote: [\[CITE\]](#) I mean I am trying to figure out what is so special about these three letter outlook emails that someone is selling for some dollars

Because most of them are taken, yet there's thousands out there so they're cheap.

People just like 3 letter combinations because they could mean various things.
