Back when I was a regular I hosted a free thread design thread, where I was doing flats thread designs for members who asked me. I have done 10+ of ths, and everyone was pretty happy about it, I think. You can check this thread [here](#).

I also released two tutorials, one on a free tool to recover passwords, and one to execute your own command for command prompt, you can check it [here](#) and [here](#).

Also, I released a userscript to get the trustscan button on a thread posts, the thread is located [here](#). And I am about to release another userscript as well.

I am fairly active in the e-whoring section mostly to help members to start.

Some times I give out a few dollars to users who needs it. (in the Rewards and Small Favors section).

Thanks Frankie!

I try to contribute as much as I can, without seeking attention. I want to be a example of what real quality means, not the generic idea of "HQ" where you post as much as you can, and mindlessly asskiss anyone avoiding any differences.

Every post I make, I try to make sure it has some meaning and contributes to the thread. My goals here are mainly me to grow, rather than gain attention or anything like that. I wish to spread my knowledge, learn some things and help as much as I can.

Thanks for the opportunity.

Hi, I have been here a long time and would really like to get the epic upgrade. I don't really have much time to get on here like I used to which saddens me, but I still love the community just as much as I did before. I've done various giveaways and contests in the past, for things like Christmas and Halloween, and other things like Free Graphic Design. I always try and help people out in the graphics requests section and I used to help out in the VIP Area GFRBYWFS forum. I just would love to get another upgrade as it has been a long time since I've got anything from here which would be nice. Once I get another job I will probably do some more giveaways but I'm broke at the moment.
