The font is not appealing at all. Nor is the banner but the rest I like!

Looks like a nice thread design, bit I don't really like the look of the font. Thanks for this @OP

Guys beware of this dude, he scammed me \$30 and hiding from me going to two weeks now. I paid him that amount for bulk mailing service but he vanished the moment he got my money. I have sent several PM to him without getting a response. Don't trust him in any deal, he is among d idiots that are letting HF down.

Keep it on topic this is not marketplace discussion

Idd he should stay ontopic but he is just trying to warn other HF Members who are here for fair business that they shouldn't do business with him.

Anyways i don't want to go completely off-topic myself & would like to feedback the OP's thread design.

Since this is your first thread design i would say that it is a good one BUT there is to much basic black & white in my opinion wich makes it look a bit to basic & boring, also the letterfont is way to busy, i guess you choosed to put a capital letter infront of every word yourself if you didnt do that it would make the look of the design alot better already, the banner on the top also doesn't fit the rest of the thread & the thread title is a bit to basic further then that i think the idea of this thread design's is very nice you just should have made some better decisions or spend a bit more time on the design.

Anyway's it is your first thread design ever made so for that i would give you a 6 on a scale from 1-10 wich is pretty good if you ask me.

I hope my feedback helped you a bit, keep up the goodwork & don't forget practicing = improving.

I thank him for that cuz without his post i would see you as a trusted HF member cuz of your high amount of Reputation Point's.
