Thread: [Free TechyToolkit for all..](#)

Digital™ - June 17, 2015, 1:23 am

Hey guys just though i would share.

I am currently working on building a tech/optimization toolkit that is very small and downloads each extra thing should you need it. Anyway I have attached the screen shot below, along with the virus scan link and also the download link should you wish to try it.

Its Functions:Creates a restore point - You must wait for this to complete before doing anything else
Opens MSConfig
Opens Task Manager
Download CCleaner to %appdata% and opens it once downloaded
Downloads Autoruns to %appdata% and opens it once downloaded
Downloads ShalliRemoveIT Portable to %appdata% at opens it once downloaded
Downloads Speccy to %appdata% at opens it once downloaded
Runs CheckDisk on C: Drive
Starts System File Checker sfc /scannow
Opens Add and Remove Programs or appwiz.cpl
Checkswhether 32 or 64bit and downloads the correct roguekiller and executes after download completes
Runs Netstat -o 3
Downloads FarBar Recovery Scan Tool to the Desktop for easy location of the logs.
Downloads JRT to %AppData% and starts the application once the download is complete
Downloads ADWCleaner to %Appdata% and opens once complete
Downloads MiniToolBox to %appdata% and opens when downloaded
Downloads MalwareBytes to %appdata% at opens it once downloaded
Downloads TDSSKiller to %appdata% at opens it once downloaded

When the application is downloading the buttons become disabled and once complete re-enabled.

Here is the screenshot:

Here is a video demo:

[Video: <https://www.youtube.com/watch?v=wx3huiQjwos>]

The Virus Scan Results:

<https://www.virustotal.com/en/file/1f7136555a98ee01b4345362a462b86c732d5bbe1a66cd6e5b673165cb7dd76f/analysis/1434515992/>

The file size is only 251KB. Let me know if you have any suggestions or issues

Here is the download link

<http://download.techytoolkit.com>

Its still a working progress and i am not a programmer but i hope you like it.

BTW, I know Chrome and Internet Explorer will say the file is a risk as its not frequently downloaded, as its new. Ill be fixing that later.

iSte - June 17, 2015, 1:47 am

OP Thank you for the share! ?

Digital™ - June 17, 2015, 2:05 am

(Jun 17, 2015 01:47 AM)iSte Wrote: [\[CITE\]](#) OP Thank you for the share! ?

Your welcome. I am glad you are happy ?

If someone wants to see the code to vouch its legitimacy then fine no problem. I hope more people try it out.

Malitia - June 17, 2015, 3:28 am

Thanks for this OP, one day it will be really handy to have

DuguWudi - June 17, 2015, 4:08 am

Nice share btw OP. Thank you.

Digital™ - June 17, 2015, 4:22 am

(Jun 17, 2015 04:08 AM)DuguWudi Wrote: [\[CITE\]](#) Nice share btw OP. Thank you.

Thanks man. Glad some people are making use of it.

?Luxury - June 17, 2015, 4:22 am

This will definitely be useful to me at some point, thank you

Digital™ - June 17, 2015, 4:29 am

(Jun 17, 2015 04:22 AM)Noraski Wrote: [\[CITE\]](#) This will definitely be useful to me at some point, thank you

Cool man. Well i do alot of remote tech support work and instead of copy paste all the urls for the downloads over i just thought this was quicker and very simple to use. Glad you find it useful

This site is shite - June 17, 2015, 7:31 am

I can vouch for the legitimacy in this tool kit. He showed it me it over skype and it works very well.

Digital™ - June 17, 2015, 8:05 am

Thanks for the vouch man. Yeah if anyone has doubts I will quite happily show you visual studio and the code no problem.

Gustav. - June 17, 2015, 8:05 am

Everybody should be getting your hands on this, very effective. Keep your PC clean guys!

Digital™ - June 17, 2015, 10:03 am

(Jun 17, 2015 08:05 AM)Chief Wrote: [\[CITE\]](#) Everybody should be getting your hands on this, very effective. Keep your PC clean guys!

Thanks for the vouch man it means alot.

BTW If anyone just wants to see it in action here you go

Sahaj - June 17, 2015, 10:04 am

That's awesome man, great job!

Digital™ - June 17, 2015, 10:08 am

(Jun 17, 2015 10:04 AM)Sahaj Wrote: [\[CITE\]](#) That's awesome man, great job!

Thanks dude.. ? Appreciated

leet lol

Raz?r - June 18, 2015, 12:27 am

Nice toolkit, you might want to include some custom tools,
as restoring the Browser Shortcuts, a ton of malware currently modifies their startpage using that method.

?

Digital™ - June 18, 2015, 12:32 am

Perfect thanks man. Thats also the purpose of this giveaway...any suggestions that will make this more usable and beneficial to the user are appreciated. I will look into adding this function today hopefully, if not by the weekend.

Keep suggestions flowing guys.

Raz?r - June 18, 2015, 12:34 am

For the buttons that open MS tools as msconfig you might also want to check if they aren't blocked using an Image Hijack or disabled in registry.

?

Digital™ - June 18, 2015, 12:36 am

?

Yes! Get ya! I like it... you mean like when someone is ratted and they disable task manager currently the button on the toolkit currently just does:
open task manager

but it should check to see if task manager is disabled and if so fix it first and then run it.

I hope im getting your point.

Raz?r - June 18, 2015, 12:41 am

I hope im getting your point. Yes that + Image Hijacks :D

Just check if a Debugger is set at

Code HKLM\Software\Microsoft\Windows NT\CurrentVersion\Image File Execution Optionsand remove it.

Very efficient little toolbox, bro! A handy toolkit indeed, could be very useful in the future.

Thank you for the share mate.

Btw, if it hasn't already then please add an auto-update feature so it searches for the latest version! That would be useful for me in the future as an alternative to checking if mine is updated if I happen to be reminded by seeing your thread pop-up again.

Nevertheless, vouch for Digital and his swanky toolbox!

Kind Regards,

~ dodgygeez

Thanks for the vouch and I am glad you like it. The app and some of the apps within such as speccy, autoruns & shalliremoveit are portable so not sure about the update feature. However the toolkit does download the latest versions of JRT, ADWCleaner, MBAM e.t.c

I may add a notification to the app to advise should a new version be available (maybe that a way around) but tbh when techytoolkit.com is up it will be much easier to download the latest version directly from there and/or from download.techytoolkit.com and being only 260kb it was designed to be downloaded and run just whenever needed.

Thanks for all suggestions I am grateful and will look into improving this toolkit as best as I can. Whoop I just got into Debug!

perilperilperil - June 21, 2015, 12:46 am

Is thing ring0? Or is it ring3? Can i see the code?

Digital™ - June 21, 2015, 3:07 am

(Jun 21, 2015 12:46 AM)Gang Starr Wrote: [\[CITE\]](#) Is thing ring0? Or is it ring3? Can i see the code?

Neither ring 0 or 3 and yes your more than welcome to see the source code. Send me your skype and ill share screen tomorrow. TBH its not in my interest with such a clean record and years of posts

to try to infect users of HF or anywhere. But if you request to see the source code. No problem kiddo

D44n - June 21, 2015, 5:41 am

Nice share! Awesome program!

Digital™ - June 21, 2015, 5:44 am

Oh yes, I understand that but I was more referring to any improvements you do for TechyToolkit so I don't have to revisit this forum for each time something new is implemented or something like that! :D Not just because I'm a lazy bastard but also because I would hate for new things to be added to this handy little tool and me not having access to them because I have forgot to check the thread for the latest updates for it if you know what I mean ;)

(Jun 19, 2015 01:36 AM)Digital™ Wrote: [\[CITE\]](#) I may add a notification to the app to advise should a new version be available (maybe that a way around) but tbh when techytoolkit.com is up it will be much easier to download the latest version directly from there and/or from download.techytoolkit.com and being only 260kb it was designed to be downloaded and run just whenever needed.Ok I just read the rest of your reply and it seems you initially understood me anyway, aha :) Appears as though this tool has a promising little future. I'm sure it will be very useful when i need it ^^

Kind Regards,
~ dodgygeez

Mr. Robot - June 22, 2015, 2:56 pm

Nice toolkit- Think you should add speedfan and treesize :) Just an idea!

MarvinWZ - June 22, 2015, 5:14 pm

Comes in real handy! thanks alot!

Digital™ - June 23, 2015, 2:20 am

Thanks for all the comments guys. Im pleased you find it useful. I am going to polish the whole thing up, get all the required permissions from suppliers (free software anyway) and release it properly when i get chance. As for SpeedFan and TreeSize.... if people want it..Ill add it.

CJamie - June 23, 2015, 2:27 am

Thanks for sharing OP. Gonna try the program now.

iSte - June 23, 2015, 2:41 am

Waiting for the 2.0 version :D

Pranzzz - June 24, 2015, 1:46 pm

Vouch. Legit user and very trustworthy :)

Digital™ - July 7, 2015, 7:07 am

No problem guys... Glad you like it and find it useful. I will be updating it over the summer with lots of

new features but currently tied into a video production atm so rushed off my feet.

Anyway glad I could be of use.

Digital™ - *August 27, 2015, 12:18 pm*

I am about to start redesigning this toolkit over the next few weeks with some of the requested features from HF members and other technicians. If you have any suggestions let me know.

Thanks ?

Digital™ - *September 16, 2015, 1:37 am*

Just a quick to remind you of this great simple tool that might save you guys some time and keep suggestions coming in about the new update thats coming soon
