Holy shit this is an anime that is up there with hxh and all of them, my perfect taste of anime, I recommend to people who liked hunter x hunter, akame ga kill, black bullet and things like that with cool ass characters and like S level people.

The anime is pretty incomplete compared to the manga

I enjoyed the sadistic/horror events in the series, but angel. is right, the series is incomplete with too many questions. Even the ova didn't wrap things up.

Manga was pretty excellent. Though that ending.

Decent anime but I would never compare it to Hunter x Hunter.

Zexo - June 19, 2015, 1:04 am

Ya i loved the anime i wish they would have finished it but to anyone who watched the first season i would read the manga the manga and the first season are pretty much the same for both but still good.

very true, hxh was the best anime ever created imo.

OT: The ending in the anime pissed me off so much, good none the less.
