Thread: [Free Working Xbox Live Gold Method \(Xbox One\) \[Tutorial\] \[Old\]](#)

Formant - June 20, 2015, 2:17 pm

I've been seeing a lot of posts lately asking for Live methods so I'm going to share one that I have used before.

This method is not new and works best if you are on the Xbox One as it uses the Share Gold feature. The method is free, whitehat and has been shared on the forum in the past.

This method will only allow you to make free 1 month accounts. If you are on Xbox 360, you can only use this one time per account. If you are on Xbox One this method will allow you to have unlimited gold (1 month subscriptions) on your main account, but you will need to make a new account every month. Some people may find this annoying, but hopefully it will help some of you guys out there.

- 1) Make a new account at www.xbox.com.
- 2) Use [this link](#) to sign up for a free 1 month of gold.*
- 3) On the Xbox website, go to My Account, then Subscriptions and turn off Auto Renewal.
- 4) Sign in to your new account on your Xbox One.
- 5) Go to Settings and set your Xbox as your Home Xbox.
- 6) Repeat steps 1-5 when your subscription runs out.

*To use the offer, you have to enter billing information. You can either enter your personal billing, or use fake information. Either way, no charges will be made as you will turn off auto renewal once done. If you use your personal credit card, I believe it will only let you make 5 accounts as Microsoft have a safety measure to only allow 1 credit card on x amount of accounts. The offer can only be redeemed 1 time.

If for whatever reason you are struggling to do this, send me a PM and I'll do my best to help you out.

Happy Gaming! ?

Yeah, I'm just tired of explaining the same thing to multiple people and constantly having to find the link for the offer over and over again. Now I can just link them to this.

Hopefully this thread will reduce the spammy posts of people asking for free methods/codes as well...

Right. This thread will be useful for the majority of posts in this section.

I just tried this with a new account and after my purchase, my gold was removed from the account for some reason. Anyone else have this problem?

If any could hook me up with a 48 hour I would appreciate it.

Haven't heard of this problem... Try again with different billing? (Assuming you used fake info)

Reviving this.

As far as I'm concerned, this will never get patched.

It might work but the Xbox website is disastrous. Sign up for a new Xbox.com account just to be told that I have to then sign up for a Microsoft account, which wouldn't have been such an issue if it didn't just keep saying: "Something went wrong and we can't sign you in at the moment. Please try again later." FFS Microsoft. I'll try this again later and see if they've sorted their shit out.

When I make new accounts, I make a new outlook email on the Microsoft site as well. I just follow the typical sign up instructions... Dunno if that helps.. I never have issues lol.

dhanadhan - June 28, 2015, 10:59 pm

It did not work for me at first. So enter billing info and than change your region to USA and it should work.

XXXHacker - June 30, 2015, 1:21 pm

Of course it still works.

There is a service alert for the Xbox website and Core Live services at the moment, so if you are having difficulty right now, that is probably why.

PM me with questions if needed.

Ahhh ok that make sense now lol, As soon as i enter the code for the security thing i get the "Uh oh... that shouldn't have happened. It appears you've found a glitch in the system. Please try again later." on the next page, ill try again later hopefully they fix the servers!

Happy Gaming! ?Does this rule still apply even if you remove your personal CC after you've made the "purchase" from the monthly account? Or can you only have a single CC attached to 5 accounts at one point?

Scortex - November 18, 2015, 8:11 pm

Everyone instead of CC just use a paypal with a card linked.DOESNT NEED MONEY

Doesn't that involve creating a new GayPal account every time you do this? Correct me if I'm wrong.

No, you can attach your Paypal account to 5 xbox accounts I think, I have mine on 4 accounts on my xbox.

Also guys from November 20 through November 30, all non-Gold subscribers can get a one-month subscription for \$1, this is so you can access the black friday sales.

Yeah the same billing rule applies to PayPal - 5 accounts.

Thanks for sharing the Gold promotion dates.

Thanks for clearing that up, bud. Hopefully still working in 2017 when I need it. Stacked up a few XBL Gold codes when they were cheap.
