Wow, nice pics. My sister is moving out to Colorado soon so I'll be spending some time out there in the future. I hear the nature is unbelievable and your pictures really show it.

I'm heading out there this summer for a hiking trip. I'll be bringing my GoPro Hero 4 Black so I hope to get some quick 4k footage, and maybe a nightlapse or two. Great photos though. I wish I could bring my DSLR with me, but it's too big.

Its unbelievable, we did a 5 hour hike today up to 12k feet. It was the best place ever. So tranquil. Id make it a priority to bring your DSLR, I managed to fit all my gear in my pack and had my dslr out.

Amazing pictures buddy.

I want to go to Colorado soon, at least 18 to smoke right?

I believe you have to be 21 to smoke there.

EDIT: Yep.

Oh wow I thought it was 18.

Is their anywhere where you can be 18 to smoke weed legally?

Wow amazing shots.

Hopefully one day I can visit places as beautiful as this.

Wait..kool shots, but what is with the rope on the first photograph? Did you edit it or why are the colors "broken" on it? Go check it out..not that something isn't right with your new cameras sensor or anything likewise!

Felnuts - June 21, 2015, 9:01 am

Wow, sick shots bro. I might use these if you don't mind?

The colors are like that because when I shot it, it was under exposed. I think when I turned it up in Lightroom it left some noise. That and some color enhancement made it a little noisy, ill have to check it out in lightroom.
