Writex - June 21, 2015, 11:37 am

Hello!

Profile link: hackforums.net/member.php?action=profile&uid=2066850

Yesterday i got scammed by Demo™, I saw that he had posted that he had a CS:GO account. So i did PM him, this is what he said:

gyazo.com/34a274888526896574ee7df15fd1707b

So i added him on Skype, he gave me working account. But after a short time it got recovered, so asked for a new one. This account lasted a bit longer, but now it is recovered. Now he has deleted me from Skype:

gyazo.com/12d412377fe6a60599a7b7985e1c399e

So i started to PM him on HackForums, and this is what happened:

gyazo.com/bbb9803bb34b4c9b6de10f9e3740690e

He flame like a 14 Years old guy, and won't help me get this resolved at all. He did not have that shop open when i did PM him, so he had no ToS at all. This user clearly scammed me, and i want a working CS:GO Silver account.

Proof that he got money:

gyazo.com/6c74d5b02e6f5915576afb48bcaa0917

That account is recovered anyway. I want refund or my money back.

This kid is a multi, has 4 other accounts and insults me of scamming while I didn't even deal with this piece of shit. He dealt with my partner and my partner already gave him another account which we normally don't. This kid is blind and he didn't read the ToS.

I mean he clearly states they are cracked accounts. All of this fuss isn't worth 13\$ you knew you could lose. I'm not sure why you wanted a cracked silver account when you could have bought CSGO for cheaper, and ranked it up on your own. I don't think Demo scammed you, because why would Demo throw away profit for 13\$ it just doesn't make sense. I just think you should have been more careful with your money, and not have bought cracked accounts.
