This account is my original account. I cant play it now due to having to sell my computer so now all i have is a shitty laptop.

Looking to get a decent offer for this.

This has a ton of premium skins and has cacademon ymir beta skin as well.

Lots of odyssey items and over 1k arena matches played.

Also has a very rare Kali convention 2013 skin

Looking to trade for runescape gold or BTC, not interested in paypal.
