Erby - June 21, 2015, 6:25 pm

The Epic Not-So Ultra E-Whoring Guide

Before I start this, I want to be a big sook and give a few thanks to people. Firstly, thanks Sora cos I leeched a few of his pic packs and forgot to reply on his thread lelz. Next Boxy, because, well, that's how I got back into E-Whoring. Kolleqt since now I've spent hours planning and making this. Viewer 41 of that one stream for getting me to finally finish. Darth Burnham as well for being Bane. Then Teemo OP, and well, lots of the other people I've mentored that have given me a good reason to continue helping newbies.

Everybody in the H.F community. Yes, the bastards, trolls, good samaritans, vices members (Good peeps), graphical wizards, cramped coders, slimy merchants, really good merchants... Errybody. And o' course, Nikolas, the eleven year old kid that got me into E-Whoring. Because of all you guys, I'm experiencing a first world problem at Misthub since I finally took the step and ordered my first vaporizer!

A lot of people have asked why I called my last guide the 'The Epic Not-So Pro'. Well, let me take it a bit deeper. The 'Epic' part is mostly because people mostly either call me Epic/Epicwaffle/Wafflerave/Rave, etc, basically anything except for Waffle... All I ever wanted in my life was to be called 'Waffle'. And since more people call me 'Epic' I just put it in there. I'm also not a pro at E-Whoring either, nor do I say I am. The name just came together because let's face it -- the way I formatted the other guide was more bunched and cramped. It lacked professionalism and I liked it. Someone asked me to change it since some people didn't get drawn in since it said it wasn't a pro guide. Lol. Nope.

Once again, the only thing I ask for is one comment, even to call me a bitch that lives behind a dumpster for noodles, I don't care. I just really want this guide to get more exposure to help more people. But of course some of the lazies already skipped this section, so, whatever.

Get prepared for the Epic Not-So Ultra E-Whoring Guide!

Table of Contents

Section I./En {~} New guide, New Language, Same Basics

- 1.en - "Whatever You Are, Be A Good One."
- 1.två - "If Not Us, Who? If Not Now, When?"

Surprisingly, a lot of people tend to ask what E-Whoring is. So many people have different definitions for it. E-Whoring is simply the act of posing as someone you're not, female or male, to get money by selling other people's nudes or videos. That's the most basic break down for it. It's not someone who gets the most profits doing it, spends the most hours, or helps the most people. We're all just a community of people that make profit from someone else's nude body or a sob story. Here's a small list of E-Whore slang.

Pedos - Customers, short for 'Pedophiles'. Please specify if your customer is actually a pedophile if they are.

VCWs - Virtual Cam Whores

AGC - Amazon Gift Card

PP - PayPal, rarely used as a acronym for picture pack

Traffic - Sites used to attract customers

Method - The way a E-Whore gets customers. Most basic methods are Manual, Semi-Auto, and Auto.

Sat/Saturated - Something very well known, usually a traffic site, picture pack, or method

Unsat/Unsaturated - Something little to no one knows about, usually a traffic site, method, or picture pack.

CL - Craigslist

E-W/EW/E-Slut - Other names for a E-Whore.

Pic Pack/Picture Pack/Nudes - A pack of nudes that a E-Whore sells. Commonly used by KiK and other E-Whores that includes chatting.

VCW - A fake cam show used by VCWs to get customers to believe they're real. These 'shows' have commands that allow the VCW to control what they do.

Commands - Commonly refers to a VCW's interface. Rarely used to describe copy and paste lines for messaging E-Whores, macros, or hotkeys used to command what the E-Whore says.

Name Demo - Ask Qawias.

CC - Acronym for 'Credit Card'. A big no-no for payment options.

Peter - Someone you absolutely do not fuck with.

Manual Method - A method that requires you to do everything by hand. Normally for you to chat and come into contact with your customers individually and without a bot. Also for you to collect payment the same way.

Semi-Auto Method - Means 'Semi-Automatic'. A method that usually consists of you chatting or coming in contact individually, but normally you collecting money using a autobuy or donation link.

Automatic Method - Sometimes called a 'Auto Method'. Usually consists of using bots to chat with, add, or come in contact with a customer. Also normally uses a autobuy or donation link to collect funds. So if you've ever been added on Skype by a 24/f named Tracy, that was most likely a filthy E-Whore.

BlueStacks/BS - By far the laggiest program your computer will ever come in contact with.

FC - Acronym for 'Fake Camera'. App used to send fake live pictures.

KiK Method - When someone downloads BlueStacks, a Android emulator, and downloads the KiK setup to E-Whore. Can also be used with a jailbroken phone or Android phone.

KiK Setup - Usually a picture pack, KiK, a KiK profile, and FakeCamera.

Skype Method - Mostly when someone uses VCWs on Skype to E-Whore with.

Skype Setup - Usually a VCW, Manycam, Videos, Skype, and Flash.

Join.me - Popular site for E-Whore streaming. BlueStacks hates it.

HF - Holly Fazier.

HF ON YA FORHEAD, BITCH - A phrase thought up by Ixtab. Also describes gullible pedos.

E-Whoring might seem complicated at the first glance but it's just really how complex the community is that continues to grow over it. E-Whoring gets easier the more you do it -- such as when you first start coding you might forget a few lines, but the more you repeat it you remember it.

It's normal not to get even \$5 in a hour, but I can guarantee that if you just work hard for anything you'll get there. Plus E-Whoring builds on good skills. Such as Social Engineering and Marketing. And what is Social Engineering? Well, Social Engineering is when you... Social Engineering is like, it's kind of... What is a Social Engineering? Let me spell it for you!_____

REST BELOW_____

- 1.två - "If Not Us, Who? If Not Now, When?"- 1.två -

Social Engineering is simply the art of manipulating someone to do what you want them to do. It's the backbone of E-Whoring. Do we need

picture packs? Yes, we need them, but some customers just require you to succeed at pretending to be the person you portray yourself as. You need to really get yourself in the role, reply the way you think your E-Whore would, have interests stereotypical for your type of E-Whore, etc.

For example, if your E-Whore was a lawyer asking for \$20 on KiK or Skype do you really think anyone would believe they were selling nudes? No. Most customers are looking for above average, young, innocent girls that range from 18-29 that they can stroke their dicks to. It's the simple truth.

A good sob story needs to also play the role if you decide to use it. Don't go too far fetched, some of them can actually get buyers to not buy if they think it sounds like something expensive.

EX. Kidney failure surgery for a relative.

Doesn't it just sound expensive to you, even if it's not? Yes. Most surgeries get people to think that they're really expensive. So buyer just looking for cheap nudes might think you're charging an abnormally high price.

You might argue that some E-Whores charge really high prices, but most of the time they're the ones that have been around for quite sometime. Long enough to have regular customers, know the ropes, good methods, and unsaturated sites.

And I cannot stress enough. Your name also matters. Courtney Ashley or Marcus Xavier seems weird, and also like you're trying to hard. A username like xobabycakeskissesxoxo just sounds like a E-Whore name, doesn't it? Isn't that good? No. You want to sound like you're the person you convey yourself as. Would that person have such a blatantly obvious name that makes potential buyers go away? No.

- 1.tre - "Turn Your Wounds Into Wisdom" - 1.tre -

It'd be dishonest if I said that there's no attributes that could help you and own you while E-Whoring. It's just what it is... It's like that for almost every hobby or job. You can't be a bad listener if you're a lawyer, for example. Here's three qualities that I personally believe just don't go too well while E-Whoring.

Gullible - You might be thinking that this is just way too obvious to be on this list. But it's simply not. Pedos will try anything to get nudes. This includes blackmailing, extortion, fake payment proof, excessively asking for nudes, or fooling you with the idea of getting more money if you do something. Firstly, if someone threatens to report you, tell them to fuck off. Especially if they also try to extort or blackmail. I also recommend only doing one nonude preview pic, try and make it a live proof pic and say that's the only type of preview you offer. And please don't send the nudes first or until you've gotten the payment. Payment proof can be so easily manipulated just like your customers.

Easily Attached -It's a no brainer. If you become so easily attached to your customers that you're treating them like more than a quick buck, it's too much. For example, if you know their favorite color, movie, brand of clothing, name of mother, location of ancestor's graves... Just don't. Please don't. You're only selling your product.

Guilty Grocer - If you find yourself easily eaten by guilt, then this might not be for you. Because some Pedos will try and play on your guilt to extract more product or get their money back, probably even give you a cheap sob story. For example, probably saying that they're poor and can't afford nudes to get some freebies. You've just gotta be able to suck guilt up. They're not going to feel guilty for tricking you while they're getting off.

Each day, Pedos are thinking of better ways to trick E-Whores. They're coming up with new ways to fool newbies or the innocent 'girls'/'guys'.

- 1.fyra - "Life Is Trying Things To See If They Work" - 1.fyra -

As always, here's the downloads and threads for picture packs. There's not much needed really. If you've only got a jailbroken or Android phone all you have to do is skip downloading BlueStacks. Nothing else really special, nor do you have to sell your soul. Bluestacks -

<http://www.bluestacks.com/download.html>

KiK (A downgraded version) -

<http://www.mediafire.com/download/mkylvf2a3g2h1l3/kik.android-7.3.1.111.apk>

BHKiK (Optional, Additional KiK account) -

<http://www.mediafire.com/download/zwlx2w33zwwijzy/bhkik750121.apk>

Fake Camera - <http://www.mediafire.com/download/mz1pri...camera.apk>

{-} Installing Downgraded KiK, BHKiK, and Fake Camera {-}

Installation - Double click the .apk after you save it, or before hand, choose to open up with BlueStacks' APK Handler.

Downgrading Already Installed KiK - If KiK was already installed and it won't downgrade, go to the search function of BlueStacks. Afterwards, search 'KiK'. Kik should start running, but just exit out of it. You're now on the page for KiK. Simply uninstall it and install it as stated prior.

Section I./två {-} im so happy 'cause today i met my friends. they're in my head. {-}

- 2.sex - "Solitude is The Place of Purification."- 2.sex -

{-} Traffic {-}

One word: Traffic. Two words: Quality traffic.

If you remember well, I explained the differences between Sat and Unsat and how they can also describe traffic. There's no way around it. All of us are competitors against each other in E-Whoring. Someone is always going to get most traffic and someone is always going to get the shorter end of the stick. But does having the most traffic mean anything?

No. When it comes to traffic you have to take quality over quantity. You don't want three hundred time wasters and just one quality buyer. No. Which is where traffic sources come in. If you use a saturated site, then expect to have more competitors and most of the time more timewasters. Meaning you have the possibility to make less money since there's more variables in the mix.

Plus people from saturated sites are more likely to know the tricks behind E-Whoring.

So what are some good traffic sites? Since I, myself, follow the code of Iloominyati, I can only give out saturated sites that you can still make profit from. Here's a list:

<http://pastebin.com/y3q0z4K2>

Out of that list, I highly recommend kiksnapme, kikhorny, and kikfriendfinder.

{-} Umm, Timewasters? {-}

Something most newbies want to know. How do you weed out timewasters, right? What's the best method? Honestly, I can't recommend the best method. Using a fake payment processor works, it really does, just not all the time. So what's a good way to not let go of buyers but also weed out timewasters?

I don't know if anything like that even exists.

The only thing that I can recommend is paying attention to key detail and words. Most of the time, it's just the way a timewaster phrases words differently when compared to buyers. I've found that timewasters mostly refer to previews as 'samples' or say 'free pic'. A lot of timewasters tend to have dick pics for profiles, send dick pics and convo starters, or ab pictures. They normally look like scumbags or say scumbaggy things such as, "you're wasting my time since you take so long to reply, are you even interested?"

What do I say in response? Fuck off.

Though, I recommend not wasting anytime. Just block and move on. The more you E-Whore the more you just have that instinct kick in that someone's a timewaster.

- 2.sju - "Sometimes, When One Person is Missing, The Whole World Seems Depopulated." - 2.sju

This is going to be by far the shortest section. How to talk to your customers.

When talking with customers keep in mind that they think you're on a PHONE. So they don't expect you to have perfect English and grammar. Try and shorten phrases, use text speak, but don't use too much or you're just trying too hard.

Good Ex. "hi r u interested n buying ?"

Bad Ex. "hi r u inerested n buy mah n3wds?!?!? xoxo :* <3 buttercakesbuttercup? pls my plane crashed n africa n these piepl wnt ransome money pls sugardaddy?"

But don't have perfect spelling either. I normally slightly misspell words. Most of the time instead of interested I just say 'intrested' since it seems like a honest mistake. Using a lot of slang or text speak could possibly confuse a buyer.

But what about wiggling yourself out of things such as writing name proof? Well, just say you don't have anything to write with, or write on. Or that your parents just came in and you can provide proof later, or just say some shit to buy some time such as dinner is done, have to answer door, heard a strange noise, etc.

- 2.åtta - "There is Just One Life for Each of Us: Our Own." - 2.åtta -

That's it.

You're done.

You've just learned the basics, grunt, time to earn your bread. And for some reason I'm sure that somehow the whole E-Whore community is proud of you. Sure if we had the chance we'd steal your customers like rapidfire, but in some way, this has got to be one of the light hearted sections on H.F. There's always new laughs, helpers, new newbies, strategies, and the market is constantly revolving.

The only thing you have left is to decide on the payment options you take, and to create the E-Whore. Taking credit cards is a no-no. Just create a E-Mail to get whatever payment, and also a account for things like Paypal if you're interested. Amazon gift cards just get mailed to that E-Mail, but you can redeem them on your personal account without worry.

What's left to it?

Never giving up easily.

Thanks for reading.

I don't think this is worthy of a sticky, to be honest.

(Jun 22, 2015 10:50 AM)liamsi Wrote: [\[CITE\]](#) Duplicate section! ?

Yeah, there's no way I can go and edit it out since the guide is over 20k characters. Plus it was a big rush since I had to make sure nobody posted. So yeah, lol, I was scrambling a bit. Hopefully people tell or that'll get the point across two times.

Now that I think about it, there was actually supposed to have two more additional parts of 'två' because I wanted the original guide to have two sections and ten chapters in total. Never got into writing those two, so I dumped them. Heh, guess I'll have to look into those for whenever I release another guide.

For people wondering the language is Swedish. I've recently started Swedish lessons, so, yeah.

Heulen - June 22, 2015, 1:28 pm

This is great. After reading this guide it seems as if the method I used to use in this thread (<https://hackforums.net/showthread.php?tid=4429449>) still works the same.

Could you maybe help me get started again? I'm looking to get back into E-whoring after a while.

pretty good thread nice job man thanks a lot for the help :)

Adsmte - December 14, 2015, 9:12 am

Really appreciate it man thanks!

Oddissee - February 13, 2016, 11:48 am

Good guide man. Keep up the good work.

Loved how you defined all the terms!

Danny Khalifa - February 13, 2016, 12:10 pm

Nice one man.

Thanks for it!

NickLancer - February 13, 2016, 11:29 pm

Wonderful guide thank you!

Erby - February 14, 2016, 5:49 am

Thanks to Darth-B for holding it down like always!

[~]

I haven't E-Whored since sometime last year and don't wish to continue at all. I won't be that active in the community any more as a result, but I do have 1-3 projects that have been on hiatus for months. After I get done and submit them here I most likely will just stop contributing both via posts and threads to the section.

Don't P.M me for mentoring unless you expect to get blocked. There's too much going on with me currently to do it. I'll try and get back to any questions or answers, but this thread, and the two underneath this post should hold down the fort.

Thanks.

~ Waffle/Erby
