Thread: [CRYPTING SERVICE FOR FREE \[FULLY%100 FUD \] | OUT COME in VBS | Limited Time 24 Hours](#)

??xSc0rP!0N?? - June 22, 2015, 4:40 am

Hi guys

[img]http://media.giphy.com/media/gn2v6JKa4q3Ek/giphy.gif[/img]

Today I'll provide service to all HF members for free for only 24 hours from now.

I'm selling 1 crypting file for \$0.99 for FULLY %100 FUD file. But Today i'll make it free for 24 Hours from now and I want your thoughts and any comment to improve it especially that it's the first Online VBS crypter in the market.

Scan Results after crypting it

[IMG]http://22h.net/results/7fc63ff01769c4fa7d9279e97e307829.png[/IMG]

This service for only crypting VBS files , so if you have EXE file you wanna crypt it try to convert it to VBS then upload the file and you will get the crypted file.

If you don't have any idea how to crypt EXE to VBS then use my own tool I have made it long time ago but it's still works !

The converting tool is detected from some AV's as Trojan but it's not.

Download link: [CLICK HERE](#)

Website : [CRYPT.SO](#) [CLICK HERE](#)

If you want to scan the Crypted VBS file please go ahead to

[img]http://im58.gulfup.com/R6lDA7.png[/img]

Have fun ?

I WILL CLOSE THIS SERVICE WITH IN 24 HOURS FROM THE THREAD CREATION TIME

WARM REGARDS

?lixir - June 22, 2015, 4:49 am

Huh. I have a crypter similar to this. Does it use runpe?

??xSc0rP!0N?? - June 22, 2015, 4:53 am

(Jun 22, 2015 04:49 AM)?lixir Wrote: [CITE](#) Huh. I have a crypter similar to this. Does it use runpe? yes, and also it has a special techniques to make it more complicated and FUD for long time :)

Vouch! Works for njRAT!

Virus scan:

Before: <http://www.refud.me/results.php?id=dedi9ju5sbcejafriw0wylmjgicpicxbbym>

After: <http://www.refud.me/results.php?id=qs1z4r5l5oqijy3ii656qyjqoldxx1dmb19>

It's takes a bit to encrypt, but it does it great!

Thank you for Vouching and I hope you will enjoy with LONG FUD VBS FILE

JUST TO REMIND EVERY ONE . DO NOT SCAN IT IN VIRUSTOTAL

KEEP IT FUD ?

Any one need help just PM me

Warm Regards

Shinigami_ - June 22, 2015, 7:43 am

perfect tool my friend i am really happy to see this new techniques

hope you good luck

Mcbride - June 22, 2015, 7:49 am

Posting so I can find this later today, need a crypt for njrat. Thanks for doing this OP

SIM-2303144 - June 22, 2015, 5:40 pm

good crypter i Vouch you bro

Kill?Muvz - June 22, 2015, 6:53 pm

drops .exe to appdata, not very good.

EDIT: to clarify it doesn't drop a suspicious file or anything, it just drops the file you crypted. But this method would cause many runtime detections.

??xSc0rP!0N?? - June 22, 2015, 7:11 pm

Do you even know vbs? why your talking here like you found something suspicious?

For sure it have to be drop .exe to the appdata because how you gonna compile your EXE files inside the vbs?

the vbs will encrypt everything and then it will drop the exe file inside the appdata and the vbs will run it GOT IT?

Just telling you it is not the best way to do it. Any file will get detected runtime if it's being ran like this.

there are runPE's in VBS

The crypter its self have runPE.

I put the EXE to VBS tool just for helping people if they don't understand how the converting is done. But if you use VBS RAT you will have options to make it with no dropping file in any folders.

VBS RAT such as : H-Worm by Houdini

Also : VBs wOrM Controller by S i R - D o O o M

Over all %100 FUD

This service will end with in 5 min from now.
