Thread: [How to purchase items through PayPal if your linked PayPal card is banned](#)

Moon Rock - June 22, 2015, 7:42 am

This method is good if you had a card linked to your Limited PayPal and now you can't use it. Alright, so after a long search trying to find this method and finally I found one and tried it myself and it works! Now I can pay my webhosting, purchase items on Ebay, and who ever else uses PayPal without a problem. PM me and the first 50 Ubers will receive this method, I don't want to release it too wide because then it may get fixed. So get it now ?

This isn't just setting up a vcc, do you actually get the same card to work?

No you don't get the same card to work, you get 1 physical card but infinite card numbers.

Hello there,

Are you willing to give it to a L33T-3P1C user? I would love to recieve it, if there aren't enough UB3R's requesting this.

Have a nice day sir ?
