can anyone please tell me what does binder/crypter??? mean??

starcraft2 - June 17, 2010, 8:42 pm

What is a Crypter?

A Crypter is a programs that makes other programs UD or FUD by encrypting them.

What is a Binder?

A Binder is a program that makes other programs UD or FUD by binding them with another file.

What does UD and FUD mean?

UD means undetected, so only a few antivirus programs detect it. FUD means fully undetected, so no antivirus detect it, this is normally determied by using novirusthanks.org or another online scanner. (make sure you check the box "Do not distribute sample"
