This eBook is well written, and very well explained. Throughout these 26 pages, he goes through his one method, step by step. As it states above, you do not need any investments, just time, patience, and hard work (same goes for everything else). He provides many many pictures for those visual learners, and also it's very easy to read.

For the method, I haven't seen before. I cannot say it is easy to do, because it does require a lot of work in my opinion. It would help if you have a good sense/ experience with making websites. This method also does require you to communicate with someone else (not eWhoring in anyway, etc).

This eBook does hold a LOT of potential if you have the time to do this, but personally I do not. Thank you for choosing me for your review sir, and good luck with your sales. ?

I must say This method is very unique which haven't been seen in any forums.although this method is lengthy and require some time for setting up, maximum of 2 hrs.

Quality: 9/10

This e-book has a simple clean look to it. No unnecessary stuff. There are sample pictures to go along with the instructions so you should have no trouble following the instructions

Grammar:9.5/10

You will hardly find any grammatical mistakes in this e-book.

Design of e-book:8/10

Its an amazing and better design when compare to other low quality.

Effectiveness:10/10

As i said earlier this method will surely work but it require you to invest some of your time.

Note:I am not associated with LaFleurDeBamaco or his e-book.

now on to my review.

first of all. the spelling and grammar in this ebook is excellent! there are almost no spelling mistake and or grammar. OP really tried hard while writhing this as it all makes sense unlike some of your posts (no offence)

originality

i have never seen an ebook like this before. this method will work if you put some time and effort in to it.

effectiveness

this method will work and earn you some monneh

overall 9/10

if any one has any question before buying this ebook, feel free to pm me.
