Thread: [Social Roll A New Social Networking Site](#)

Social Roll - June 23, 2015, 2:50 pm

Hello all, I have been making this web site for a few months now and it is now done it is called Social Roll it is a social networking site, it is like Facebook/Twitter and I want you guys to come and join, here is the link to Social Roll [socialroll.ml](#) Enjoy!

dirheist - June 23, 2015, 3:06 pm

This is literally a copy/paste script with nothing other than the logo changed.

<http://codecanyon.net/item/phpdolphins-social-network-platform/5158794> Even the favicon is the same ?

Social Roll - June 23, 2015, 3:32 pm

ok so what then who cares

Vragoth - June 25, 2015, 10:25 am

People don't want to join a site that will be closed in a couple of weeks let alone one where there are hundreds or thousands of clones out there of.

Why join it when we have facebook already? How can it compete with facebook? It can't, you didn't write any of the code let alone rewrite any of it.

Holy fuck this is the fastest ive ever seen anyone completely destroy anyone else. Props to you.

LilDurk - June 25, 2015, 11:51 am

Lmao that guy just destroyed you, OP you should learn how to code and make your own like srs.
