I don't see why this is something we should discuss.

I simply asked a question, sorry if I offended you, that was not my intention?

I never said the goal wasn't good, I just questioned why you wouldn't ever use something else than

skype??

but your users might not be as clever as you.
Why wouldn't you ever use an encrypted form of chat with no logs?

Skype is easier and I don't know how to do group chats on Jabber

Pidgin is just as easy.
Pidgin is log free with the help of OTR plugin.
You can easily make group chats.

It would definately be my advise to move the chat to either XMPP group chat and/or move to <http://crypto.cat> chat instead of using skype.
but good luck with the group, I hope you catch some of them?

Exactly. Skype and backhat don't mix.

And you expect to do this how LOL. Dont see how you can even remotely come after these people. Unless they are publically announced (which they rarely are because they arent exactly wanting to make it public) or you become an assistant in crime with the predators. If you collect evidence via the latter of the two options, I dont see how its valid. You could also be responsible if anything was to happen.

Also, if you plan to "extort" them, you're now committing a crime yourselves. Would be foolish to do it on such a public level.

I can't discuss that here! If you want to talk in private we can :)

Then why did you apply if you saw rating, doxing and ewhoring lol?

Business Major - June 26, 2015, 7:35 am

This is a job for the police you aren't going to help. If you try to provide evidence then you will be going to jail.

Doxing isn't illegal, e-whoring isn't illegal I think.

I was skeptical when I first applied. Anyways, I wish you the best of luck with the group.
