Thread: [E-Whoring: Which guys to block!](#)

Sakurro - June 26, 2015, 6:23 am

Hi,

as I collected a lot of experience in the last few days, I wanted to summarize the essentials of E-Whoring in a short list.

And in my opinion the essential strategy is to pick out potential buyers and to know which users are time wasters.

Before you start to chat with guys, always check their profile picture and their username.

Users TO BLOCK:

1. Indians / Arabs

They will never pay because it's just too much money for them.

2. Guys younger than 20

Often users have their birthyear in their nickname. So if someone is called "johnny98" you can tell he's too young and he won't pay.

Mostly you can tell by looking at his profile picture that he's too young.

3. Guys with a meme set as profile pic

They don't want to appear serious, so they aren't serious.

4. Guys with a username containing horny/dick/sex/...

They only want to trade/sext.

5. Guys directly sending you dick pics

They'd just rip off previews.

6. Gangstas

They invest all their money into SWAG.

7. Guys with their naked upper/lower body as profile pic.

They think they are sexy, so they don't understand why you don't buy their nudes.

8. Guys with fake profile pics

Often guys set a famous person as their profile pic to appear sexy. Don't even pay attention to them.

9. Gamer kiddies

You can tell by looking at their username: "minecraftfanboy05".

Users TO CHAT WITH:

1. Old guys

Grandpas have more money than young guys.

2. Guys with a normal sounding nickname.

3. Guys with their real name as their username

They don't want to hide their identity. That's a good aspect.

4. Guys without a profile pic

In real life they might look to creepy. Creepy guys don't want to be alone and pay for your pics.

5. Guys with a single coloured profile pic (black only, for example).

Same as guys without a profile pic.

6. Weird looking guys

You can easily "fall in love" with them, because they never experienced a girl finds them sexy.

Please reply to my thread if it helped you or if you think it will help others. I really appreciate your feedback.

I approve, these are all true i had a buyer today with just a black profile picture and he had a normal user name!

Spiral Galaxy - June 26, 2015, 7:57 am

Completely agree with all of these you should also block guys that are looking for "just one more preview and I will pay \$100"

Sakurro - June 26, 2015, 7:58 am

Right. I'll add this guy later.

OnePlusUltra - June 26, 2015, 8:03 am

And block the guys who want after a proof the next proof :D

Kolleqt - June 26, 2015, 8:06 am

Disagree with all of this except 9,5,4.

The only ones you should block are the ones that say no and keep asking for proof. Don't pre-judge someone. I've made money off <20, guys with fake pictures, guys with lower body pics etc..

Indians I could partly agree on but still, people are making money off them!

Kutasinho - June 26, 2015, 8:08 am

I got something around 10-15\$ from guy Indian.... You need to ask for age first, if he's young then block.

Congratulations!

But in my opinion they are much less likely to pay than the ones mentioned

Billy Sanchez - June 26, 2015, 9:27 am

A suggestion: Don't talk to girls :)

b?xxy - June 26, 2015, 9:31 am

For the most part, I can see most of these being true. Good job.

Thanks for your feedback. That's right. Mostly beginners just spend to much time on time wasters.

AnonPwn - June 26, 2015, 3:52 pm

This is actually hella accurate!

Filmski_Kriticar - June 26, 2015, 3:53 pm

I got my money mostly from these 3 nations: Us Americans, English and Germans. I figured out that Italians like Indians never pay for pics, they think of theirselves that they are irresistible so dont waste your time on italians AND South Americans ;-)

Hmed - June 26, 2015, 4:25 pm

Say that Arabs will not pay shows that you don't really know bro.

They don't have money are you sure? I made my first bucks with an arab guy, who had tons of money to waste..
