Thread: [Is there a keylogger which could get a screenshot every time mouse is clicked?](#)

Egypt - June 26, 2015, 12:46 pm

Hello people

Is there any keylogger or program which is able to take a screenshot of the victim's screen everytime a mouse is clicked and sends it through ftp or email or anything

I will be very thankful for help

????

Arlic - June 26, 2015, 1:09 pm

Ardamax keylogger does that

Imagine the guy uses an autoclicker though

Imao

I remember something like this here meant to capture bank pins for video games.

Agent Raigar - June 26, 2015, 1:11 pm

I could do something like this, hit me up!

WOL??IE - June 26, 2015, 2:36 pm

I could add this to my keylogger I made some months ago :p

Thank you,

but it's not sold here in hf so i would rather something from here
