God Eater

Description courtesy of Wikipedia

Anime adaptation of Bandai Namco's PSP action game series "God Eater."

Set in Japan in the year 2071 where the world has been mostly destroyed by mysterious monsters known as the Aragami. An organization known as Fenrir was made to exterminate Aragami using weapons called God Arcs which is made from the cells of an Aragami. Those who specialize in exterminating Aragami are known as God Eaters. Originally God Eaters had one type in which their God Arcs can only keep gun form or blade form, however a new type has been discovered that can switch between gun and blade form. Since then, they have been classified new-types and the previous as old-types.

Duyere - June 26, 2015, 7:20 pm

I have conflicted thoughts about the artwork and animating, but nonetheless it looks like an interesting one.

Nine - June 26, 2015, 7:23 pm

Will be watching because of Ufotable and hopefully magic. ?

Yes, this is all you need in an anime.

Bezo - June 26, 2015, 9:06 pm

Is there a manga or light novel for this? Jw.

From what I remember, it's solely based off of a game (series?).

Lyralei - June 26, 2015, 10:31 pm

this is going to be a shit show with good grafixx

zyvox - June 27, 2015, 3:39 am

As long as it doesn't end up being some sci-fi/mecha thing I'll give this a shot
Then again I'm afraid Lyra is probably going to be right.
Hopefully the OST will be good though i need more good ost in my life

Kanade Tachibana - June 27, 2015, 6:49 pm

I have an amazing god eater scale figure just because it had amazing details so ill be sure to watch the adaption.

OmfgWdf - June 27, 2015, 8:54 pm

Looks really good. No doubt about the effects.

YunoLawliet - June 27, 2015, 8:58 pm

YESSSSSS

I've long waited for something like this!
Tho I know the story already. gooooses

Peanut Butter - July 2, 2015, 10:34 am

<http://www.godeater.jp/news/>

tl;dr the first episode isn't airing on the 5th, instead a God Eater Special/Extra is airing in that slot.
idk if it says what day it'll premiere, too much salt to continue reading

Angel-sama? - July 2, 2015, 10:44 am

I mean it looks good but I don't think I'll watch it until I see some reviews about it.

Kiyoshi - July 3, 2015, 4:19 pm

I'll probably bookmark this and watch it until the end - let's hope it won't disappoint me. ^_^

Lone - July 4, 2015, 11:50 am

I see this becoming super corny but who knows definitely sounds good to me!

Ang?I - July 12, 2015, 12:19 pm

Well this will be the first show I've watched that is completely CGI. Don't really have much of an opinion after the first episode but at least the fight scenes are badass.

Deany - July 12, 2015, 1:38 pm

^ Same. I picked it up just for the hell of it.

flamie - July 12, 2015, 5:46 pm

Wow. watched the first episode. I am impressed.

Zero_Luffy - July 12, 2015, 5:50 pm

Yes amazing animes i just watch the episode 1 :) wow <3

THE RULER - July 12, 2015, 6:21 pm

Dope artwork, dope character, I feel like I'm going to thoroughly enjoy this.

Lyralei - July 13, 2015, 11:43 am

watched the first episode ... not a fan of it :(

Swip3r - July 13, 2015, 11:47 am

I like it, needed something full of action anyways.

SantyMan - July 13, 2015, 12:16 pm

I'm really not a big anime fan but I watch some from time to time and this looks like an interesting one for sure and something that falls really well into my taste. However the name "God eaters" is something that sounds more like a bad translation than anything else, the animation in the trailer seems kinda weird to be honest.

Is there anyone who know if the anime will have the same format in the anime as they use in the trailer?

God Eater isn't a mistranslation, that's what it's called in English and in Japanese and yeah the anime looks the same as the preview, the scenes used are taken from episode one.

Lone - July 13, 2015, 2:28 pm

Animation is aids to my eyes can't stand it to the point where I don't enjoy watching it.. had to drop.

Duyere - July 14, 2015, 1:08 pm

The character/monster animations are God awful.

The monsters are your typical CGI monsters that look better than everything else.

The characters look like they're drawn with water paint and then horribly rendered.

The white lines around the characters absolutely ruined it for me. Decent plot and all but everything else destroys my eyes.

Ang?I - July 19, 2015, 2:39 pm

Still getting used to the CGI but I like it so far.

Glariful - July 19, 2015, 3:10 pm

idk about the art style so far, but im liking it

flamie - July 19, 2015, 5:14 pm

hang on to it, pacing is slightly poor and script, but ep 3 should def be worth the watch.

Deany - July 19, 2015, 6:02 pm

Because it looks like shit like holy crap I've never not watched something due to the art style or animation but this awful imo

datdocdoc999 - July 20, 2015, 5:30 am

Nice look it is absolutely beautiful and I love it

Looks good , graphics are good :)

Mysticman78 - July 20, 2015, 11:31 am

Well, I've just watched the first episode.... and yes Cgi looks awful, but I must admit the story is intriguing. I think I'll keep watching it.

Haggard - July 21, 2015, 3:11 am

why all of the characters looks like they are came from Attack Of Titans?

Realizm - July 21, 2015, 8:38 am

I've been waiting for this to come out, but I got busy and didn't realise it's already started now :D

I'll catch up very soon and post back with my thoughts ?

~Jay~ - July 24, 2015, 1:54 am

I'm going to catch up with this today while I xp grind. Looks very promising.

Ang?I - July 26, 2015, 2:38 pm

Pretty used to the CGI at this point. Even though the monsters have stupid fucking designs, the fight scenes are bad ass.

The OST isn't bad either.

My Name Is Pedro - July 27, 2015, 11:00 pm

It looks like a really good series. But the animation style just turns me off so much. I might just get over and give it a try. I mean the Monogatari series has a weird animation style that I thought sucked at first but after watching I grew to love it.

.Net_Swarm - July 28, 2015, 1:33 am

This is not my cup of tea
Out for the animators mind
The material seems to be a good
You have to wait a little bit more

Lyrlei - July 28, 2015, 7:45 am

I tried rewatching again and i still think this is trash. ufotable y u do this.

might try it again someday though.. when i feel like i have time to suffer.

TwiizuhL - July 28, 2015, 11:25 am

um don't really like the artwork, and looks like someone tried to copy Terraformers and not make it noticable

Grievous????? - July 28, 2015, 11:30 am

Looks f*cking awesome!
Will be watching this, graphics are amazing too.

Realizm - July 31, 2015, 10:37 am

WARNING SPOILERS! EPISODES 0-3!

I've seen all 4 episodes so far (0-3) and I have to say, I like the series. The "New-Type" phrase had me at a bit of a wonder until episode 2, and the original starting episode (1) was very fast paced at the beginning. I wish they would have done more of a background on the main character, but perhaps that'll come later on down the road or in an OVA. I would have definitely liked to see the main characters life before the excitement happens and joining the fight against the monsters. Especially where the doctors are so interested about how he is a New-Type and from the outside.

Musngi - July 31, 2015, 9:13 pm

Awesome! The animation not bad but lacking design but over all good anime.

I'm sure you're not but I got over it pretty easily.

I like the story and the fight scenes so it's not that hard to overlook the CGI, for me at least.

Ang?I - August 16, 2015, 10:31 am

Holy shit now that's a monster.

The shorts in black and white are actually quite creepy.

Proficiency - August 22, 2015, 1:33 am

The animation is the main reason why I cannot watch this anime. Looks like a cutscene from a Playstation 2 game.

SIM-1866423 - August 22, 2015, 2:19 am

Well new and HQ serie.Will be fun ! :)

If you can get over the stupid as hell looking weapons it's rather entertaining.

But ye it's bad.

Not even in the slightest.

PhoenixHF - September 1, 2015, 10:19 am

I dislike the weapons, they don't look really creative.

If I was making a such anime I'd do something similar to the concept of Prototype series.

Jaribo7475 - September 1, 2015, 12:44 pm

I have never played the game but as far as I have watched the anime is pretty good.

Eedz - September 7, 2015, 9:46 am

True, the Gunsword and the huge-ass sword are both kind of a cliché by now, but the snakelike thing inside that refills their bullets on the flesh it eats was kinda cool actually.

(Sep 7, 2015 09:46 AM)Eedz Wrote: [\[CITE\]](#) What platform was the game on? PS Vita?

I think it was already on the PSP. But I could be wrong.

First 3D anime i'm not totally worked up about the artstyle and how it would be so much better in 2D.

Grievous????? - September 10, 2015, 4:21 pm

I stopped watching it because of the graphics.

They gave me headaches.

Galaxias - September 22, 2015, 8:52 pm

The graphics is a bit intensive but overall I really love their animation. My god, its better than other animes, the story line is meh.

Ang?I - September 27, 2015, 4:15 pm

I can't believe they released an episode for the second week in a row.

Korean™ - September 27, 2015, 7:55 pm

A lot of people are complaining about the intense graphics, but I love the intense graphics, it's what keeps me engaged.

I got you.

Niggas formed a team and shit with bitch, shit goes fucking fucked, they combine teams with the best niggas there is, niggas learn to do better, some nigga shit goes down pretty sure some niggas from the team dies, some more shit goes down in an airplane or some shit (this is out of order) and bitch becomes less bitch, some other shit goes down and bitch and nigga get stranded (pretty cute) and some shit, top dog nigga shows nigga his place where he puts niggas who aren't allowed in the city covered in trees that kill niggas so it's safe, also niggas swordthing breaks somewhere around here and he finds out he can only get his sword thingy back if he cuts his life short, niggas going to die in like a month or some shit.

Oh and this episode is just filler from when he was a kid, really really good tbh.
