Gangsta.

Description courtesy of MAL

In the city of Ergastulum, a shady ville filled with made men and petty thieves, whores on the make and cops on the take, there are some deeds too dirty for even its jaded inhabitants to touch. Enter the "Handymen," Nic and Worick, who take care of the jobs no one else will handle. Until the day when a cop they know on the force requests their help in taking down a new gang muscling in on the territory of a top Mafia family. It seems like business (and mayhem) as usual, but the Handymen are about to find that this job is a lot more than they bargained for.

HS also releases on Thursdays even though their schedule says otherwise.

Sidenote, I prefer Underwater's subs to HS's by a long shot. Sucks Underwater only releases a 720p version.

There's probably S ranks too since that's often how they do rankings, if there is I'm really curious to see how they fight since we already saw an A/0 do some crazy stuff.

I hope we learn more about Nicolas' backstory in the next ep.

Spoiler [\(Click to View\)](#)AFAIK S/5 is the highest rank I've heard it from manga readers.

I think it's backwards like A/5 is better than A/0.

If you have an MC who is already the top tier badass then there is no challenge for him and it will get boring.

Spoiler ([Click to View](#))I think there are unforeseen extenuating circumstances that are keeping those two together. Maybe it has something to do with the fact that Worick's own family hired Nic as a mercenary to kill his parents. As for why they can't walk on the road, one of the prostitutes said that Twilights aren't allowed to for whatever reason.

Well that's some surprise, I knew that girl was hell fast and strong, but to think she was that strong O.o

And it's quite unfortunate :(Why does Nicolas have to be a weak one ?

I loved Alex shooting with that gun like a noob XD

Speaking of which, her brother looks way fucking older than I thought he would be..

The history behind the dynamic duo of Worick and Nicolas is quite interesting.

I just realized that we're probably going to be left off with a cliffhanger for s1. Because the manga isn't over yet, is it?

It's not, but I heard from somewhere that there's only going to be one season. I don't know if it's true but if it is I'm going to get pissed.

That's actually appreciated.

The recap episode was very good to me, I really loved how they did it. It's kind of the best recap episode I've watched until now!

And, not sure if it's right but I've seen a comment on gogoanime.tv saying:

"For people too stupid to google. There is a recap this week because the series is moving to wednesday. Therefore the next real episode will be on the 9th"

So yeah.

It hasn't.

A season 2 won't be out for like another 2 years, the manga isn't even done with the current arc yet. It's just a little bit past it.
