Initial thoughts

I'm glad to see another MMO inspired anime in the midst. It sounds like a mix between SAO and Log Horizon but will hopefully turn out to be better in comparison.

I read some small details from the Light Novel and it sounds like it could have potential.

Airing in 10 days. Hype!

Thoughts?

Wow - Thanks for this mate, Looks awesome :3 can't wait!

I like game settings or even resemblances, so I'll probably check this out. Thanks for sharing since I hadn't even heard of it before this.

Duyere - July 4, 2015, 2:43 pm

Thread updated. Overlord is scheduled for 13 episodes. A bit of a letdown but I'm excited for it. Three more days until it airs.

First episode was pretty good. It gave us a bit of a backstory and introduction to the characters.
Momonga is most likely going to be my favorite character, because y'know, how often do you get a OP skeleton as an MC.

The only thing I don't like is his voice. I wish it could have been deeper for being a ghastly skeleton.

Favorite part of episode 1 [\(Click to View\)](#)

Peanut Butter - July 7, 2015, 1:58 pm

He had an excellent first conversation with Albedo 8/8

It looks interesting enough so I'll keep watching, hope they keep it down on the lewd levels.

First episode was alright. That magic fight was nice

Didn't like the OP and ED though. :/

Me neither. The OP reminded me too much of Death Parade.

Lone - July 7, 2015, 4:16 pm

Decent episode, I hope he runs into his old guild mates or his friends... current characters are sort of eh imo.

Chad ThunderCock - July 7, 2015, 7:19 pm

I enjoyed this, has great potential, I just hope that more characters are added throughout the story, having only servants may make the story a bit boring.

that leader of guardians..

HNNNNNNG

Nevieth - July 7, 2015, 7:22 pm

I just watched the first episode a few hours ago, I can already say this is looking great. I love how the main character isn't the typical teenage hero, he's a god damn spooky skele-kun.

It so far seems like it'll be a mix between Log Horizon and SAO with the combat and strategy/ leadership. I've already made a Hummingbird group for the anime, so join up if you want to talk about it some more.

Like to see this getting adapted well so far. Since it's only going to be airing for 13 episodes I'm not going to have my expectations too high. Can't wait to see next week's episode.

There's 9 In volumes (ongoing) so there's definitely room for it, but no announcement.

Ang?I - July 7, 2015, 8:37 pm

I thought the first episode was really slow but not necessarily bad. It's like SAO but edgier.

Duyere - July 7, 2015, 8:38 pm

I did a bit of digging and found out there will be multiple arcs, but if they will be applied to the anime, I'm fully not sure.

I'm excited to see how far this is going to go. It's really got an interesting concept behind it.

Ang?I - July 21, 2015, 2:12 pm

This episode is more like, finally some action. This was literally the first Madhouse produced show that I've seen with censorship, albeit for only one scene.

Lone - July 21, 2015, 4:19 pm

Episode 3 has really gotten me excited for this anime so much cool shit they can accomplish with this.

Duyere - July 23, 2015, 7:08 am

I was a bit slow on the uptake these past couple weeks, my mind has been elsewhere.

Episode 2 ([Click to View](#)) Episode 2 was alright, more-or-less of another introduction episode.

It was cool to see how players were addressed as "Supreme Beings" by the NPCs.

Episode 3 ([Click to View](#)) Episode 3 was definitely much better. Good to see a bit of action.

Glad to see we received a bit of insight about the world he is currently in. I was disappointed that the episode ended mid conversation though.

However, I am thoroughly enjoying this anime so far, CGI is a bit eh, but I have high hopes nonetheless.

Also, I seriously cannot stop laughing at this scene.

This dude was created by a player named "Touch Me", but he said it so seriously lmao.

Tomoko - July 23, 2015, 8:04 am

Madhouse... that alone makes me want to watch it.

Is it any good so far?

Clavicus - July 23, 2015, 9:56 am

I just accidentally saw this anime after looking on MaW for something to do, and holy hell am I in complete love. Log Horizon wasn't that great because the MC just felt so pathetic at a lot of key junctures, both in the minor networking between players and in a few key moments whilst SAO was definitely made as a safe bet that could be enjoyed by old and young alike, which in turn removed part of the beauty that could have been created (however if they just didn't skip around so much with pacing it'd have been made up for).

I feel this anime will undoubtedly fill the gap between Log Horizon, which did the world, some few psychological aspects, and interactions better, and SAO, which did the combat and love (albeit shounen love) moments better. I have high expectations for this gem I almost missed.

If I have any complaints so far it'd be three things;

- Its only going to be 13 episodes /Cry and unannounced if there will be more to come /beg
- That I didn't find this gem after its episodes ran, since I think it'd be awesome to not have to wait between episodes.
- That there aren't many anime doing stuff like this at this exact moment.

Professor Pantsu - July 23, 2015, 12:14 pm

I'm really digging this anime so far. The main character being undead is hilarious and his spells are bad ass. Both loli vampire and succubus lady are great girls and I still don't know which one I like better.

Anth?ny - July 24, 2015, 5:07 pm

Anyways...

I have a feeling this will cut off before the good parts of the LN. I really hope they extend the series and make a 2nd season.

Another good episode, starting to get even better.

Episode 4 ([Click to View](#)) That knight was pretty badass against all those angels. Loved all the cool skills he was using.

I also love how Ainz is so much stronger than everyone else so far. That end of the episode name change though.

Professor Pantsu - July 29, 2015, 4:28 am

Spoiler ([Click to View](#)) I want to see him actually struggling to defeat someone. Hopefully we get to see that in the later arcs if they are animated.

I've been enjoying this anime/ manga so far. The main character seems overpowered, but it's not for some dumb reason like "he's kirito bby hes so cool".

I can't wait for him to conquer the world on accident. :P (You know, after episode 4 when his followers mistake his intentions as taking over the planet.)

Chad ThunderCock - July 29, 2015, 8:58 pm

Normally anime like this (with the fantasy/ confusion beginning) don't give any backstory until later on in the story. We don't know much about MC or his guild, and we probably wont until it becomes

super relevant.

Devixx - August 1, 2015, 8:35 pm

About my overall impression about this anime is that it's so great, maybe even better than SAO but the thing is.. As Mad Scarecrow said, it's still somewhat slow. Which would be wholeheartedly welcomed if there were to be more seasons.

Sounds pointless when it can just as easily be discussed on this thread with spoiler tags. You have the option to not click spoilers.

Also, if the option was there, I would set the thread tags as [Anime] and [Manga] but unfortunately we can only choose one.

And this section would be spammed if there was anime and manga threads for every anime being discussed.

Five more episodes is probably going to cover the rest of this arc, and then I assume season two will come at a later point in time.

That's the link to the next arc, and if the anime doesn't cover that, it will be weird. Also, they have very little content left for this arc.

I was expecting more from this episode based on last episode's ending.

I also have the feeling this season's going to end with a huge cliffhanger since the story itself seems to move somewhat slow. I didn't read the manga so I don't know much but it just feels like it moves too slow for 13 episodes.

It technically is his real world, for now. Since even NPCs are like humans in the real world, they have emotions, decisions and everyone has his own personality. Even Ainz is as if he's a complete undead right now; he's pretty much merciless as if he's a real monster.

For now, I think of it as the real deal, maybe we'll figure out how it became the "real deal" later on ;)

The anime is currently on the third arc and the manga currently has four more arcs; However, the manga has not finished yet. And the last few episodes should cover the rest of this arc.

No confirmation has made as to whether or not a second season is planned. So we all have to do is keep our fingers crossed but it most likely won't come/be announced until 2016.

Anime adaptations will always leave out details that the manga has. It would be nice to see multiple seasons but the chances are looking slim-to-none right now. Like I mentioned with the other guy. In the end it is all about funding and whether or not funds could push for season two and so fourth. If there was barely any money made from this season, then they may not push for a second.

Frankly speaking this needs a second season but doesn't deserve it.
11 episodes in & there wasn't anything big at all.
The middle episodes just went away like thin air.
This led my expectations down when I was thinking I'd get more out of an over-powered badass mc
with a love-hungry waifu.
I don't think it will ever have a sequel.

I was thinking the exact same thing. The first season was way too mediocre for it to have higher
chances of another season. I mean it has potential but not so much this early in the story.
