Thread: [\[FREE\] Thread Design | Generator Theme | All Fonts/Icons included](#)

Debrief - June 27, 2015, 5:44 pm

Hi Everyone,

I'm pretty new to the HF community and trying to give back where I can. I'm just getting back into using photoshop again so decided to throw together a [Quick Thread](#) design to share. Its pretty basic, but I'm just starting out - Feel free to use it (Credit not required, but can mention I created it if you want)

It was based around what you would normally see in a Generator thread but could be adapted to ebooks/other sales if you change the background.

File Contains:[+] Icon PSD Files
[+] Fonts Used
[+] Header 3D Text Template (PSD)
[+] PSD File for Design

I do like this one, it's simple but yet it is very professional :)

Timrspk - September 4, 2015, 11:31 am

can you upload it on any other software then mega? bcuz i cant open it :*(or send me it in a way :D
