Thread: [MCFinder Version 3.5 - Check for Minecon capes, Optifine capes, 5zig capes and more](#)

Yaweh - June 28, 2015, 9:23 am

I made a new version of MCFinder, mainly for personal use, but here it is if people want to use it themselves.

What is MCFinder?

MCFinder is a tool for checking data about Minecraft usernames.

It can check for:Premium Minecraft Accounts

Minecon Capes

Optifine Capes

5zig Mod Capes

The username being free

Many more things

Processing ([Click to View](#))

Criteria ([Click to View](#))

[Virus scan](#)

Dude, its toggleable. Why are you so mad about it. Its helpful if you want to see if the person has it
anyways.

For some reason, I get this error:
Code Java Virtual Machine Launcher
A Java Exception has occurred.
