Thread: [\[Weekly\] Tell Me an Anime to Watch and I Will Watch + Review it](#)

Wirt - June 28, 2015, 10:03 am

I am not requesting anime for me to watch for "enjoyment" persay. This thread is if you want me to watch something that you have watched and give you my thoughts on it or make a review. ?

Just as the title says. I kind of want to start a new sort of thing to keep my busy. Recommend me an anime of your choosing and I will watch it and tell you my thoughts about it/review of it.

After I get enough suggestions I will choose one from this thread and watch it and review it. Just want to keep myself busy.

Please no anime longer than ~40 episodes as I might not be able to complete it in time.

So, suggest away! ??

What genres would you prefer to watch? I don't want to give you something that you'll dread watching.

Doesn't matter to me. If I dread watching it then I will certainly put that in the review LOL.

As long as it's not slow as fuck or boring I don't mind. ?

Hope you watch this one at some point ?

I promise it'll be great

Wirt - June 28, 2015, 9:34 pm

I have chosen two for the first three weeks. I hope to watch the anime and pump out a review in 7 days or less, for each anime. The first three I will be reviewing are:

Week 1: [Mirai Nikki](#)

Week 2: [Deadman Wonderland](#)

Week 3: [Yosuga no Sora](#)

Keep the suggestions coming! Also, if you have suggested an anime and I did not list it in these 3 weeks, that doesn't mean I won't watch it in the three weeks after these!

In all honesty though, I will probably watch these and pump out a review 2 days a piece, those these will probably be done within a week or two. ;)

I am like in love with one piece right now but I do warn you this series doesn't seem like it wants to end anytime soon.

The whole series is about Tomoko being unable to fit in with her peers, and the struggle associated with it. What part of Watamote doesn't scream feels? o.O

every single part of it

It's a parody/comedy, I'll go to my romance/dramas and tragedies if I want something sad.

we're getting off the topic so i'm just gonna go

You came to the wrong place for anime suggestions ?

Chad ThunderCock - June 28, 2015, 11:28 pm

It's just something if the members of HF want me to watch an anime of their choosing and me review it, for general knowledge I suppose.

Update: Currently just finished episode 6 of Mirai Nikki. Looking to watch more episodes tonight.

Ooh enjoying it so far? Seems you had planned 1 anime a week so it seems to be going up pretty quickly :D

The "week" was to give me some leeway. I can usually finish an anime within 2-3 days. I had nothing better to do today since it's summer break and it's raining outside so why not? LOL.

If it takes me 2 days to watch it and a day to make the review, that will leave me with 3 more days before I start a new one (every Sunday). So really I have 6 days to complete this. I like to under-promise and over-deliver, if you know what that means. ?

btw the eyes in this show creep me out.

GenericSkid - June 29, 2015, 7:55 pm

Tokyo Ghoul S1 + S2 is 24 episodes. I finished them all in two days. Get on my level pleb!

I made this specifically for a friend based on his tastes a while ago and but I stand behind all of the suggestions for anyone.

<http://pastebin.com/A4KGxuyM> I tried to make it easier to read by using strings and stuff.

I am not really asking for anime to watch persay, I could easily find some on my own (however I appreciate the help). This thread is just if you want me to watch one that you have watched and want me to review it and give you my thoughts on it. ?

Trinty Seven on "Must Watch"? It's a generic harem.

neightworks - June 29, 2015, 8:00 pm

Oh then http://myanimelist.net/anime/584/Noein:_Mou_Hitori_no_Kimi_e like I said before, very few people have seen it which is a damn shame, it's beautiful.

It fits my friends interest perfectly, as I stressed before.

However I would say next to every other generic harem it is quite good.

Accel World (Same author as SAO but I felt like it was a better version of SAO, it seems like you didn't mind Yukki being a pussy in MN then you might like Accel World)

Parasyte (recent anime, really good story and action)

Zetsuen no Tempest (Amazing story with some twists, nice plot overall and nice action, wish they explored the romance part a little bit more at the end)

Sakurasou No Pet Na Kanojo (Nice story with some stuff that happens in real life that can really hit you in the feels)

Spice and Wolf S1 & S2 (Love story between a travelling Merchant from the medieval age and a Wolf girl who was an old god of the crops)
