Thread: [Trying to upgrade to a l33t membership. Need help](#)

TheDevilsAdvocate - June 28, 2015, 10:27 am

I'm fairly new to Hack Forums so sorry if I sound pretty dumb when I ask this but how to I upgrade to l33t? Once I click "Begin payment process" it brings me to Coinpayments. I've never used that in my life. I just want to pay with paypal if thats even possible? My friend told me he had no problem and could pay with paypal but there isn't any button for paypal. I decided to make a Coinpayments account assuming I must need to link my paypal or something. Still didn't work. Where do I go from here? :/

Wirt - June 28, 2015, 10:28 am

If you're not in the regions where you're allowed to pay with Paypal then you are required to pay with BTC. Or you could pay someone to upgrade you with Paypal.

Hazy - June 28, 2015, 10:28 am

Pretty sure you can only pay with BTC atm. Or only a few regions can pay with PP.

What payment methods are accepted?

We currently accept Bitcoin and Paypal. Please note that only some countries like US, CA, AU, DE, IT, IE, NZ, IN, NL,DK,NO,CH and FR are set to allow Paypal for upgrades. If you are not in one of the listed countries you will only have the option to use Bitcoin. Other options might be available in the future.

Yeah I read about that but I'm pretty sure the U.S is allowed right?

Sorry just saw this after haha but yeah I do live in the U.S so I don't understand why paypal wouldn't pop up. Is there a thread as to where I can learn how to use Bitcoin to pay?

iubjaved - June 28, 2015, 10:36 am

US is allowed, but using proxy to be in US is not.

You need to have your account for 2 days and have 10 posts in order for that option to pop up.

Omniscient - *June 28, 2015, 10:39 am*

When you go to Coinpayments you'll see a Paypal option. It just redirects you to PP.

Coinpayments simply creates an interface for payments which does both cryptos and pp at one place. They do a PP passthru. This allows us to have just one checkout system and one notification system.

The PP option is there for you. Just look for it.
