Pharcyde - June 28, 2015, 4:46 pm

About to hit the casino. Any tips on how not to walk out with an empty wallet?? ?

Silent Storm™ - June 28, 2015, 4:48 pm

Set a goal for your self, reach it, and cash out, don't get greedy!

Rob_Tatau - June 28, 2015, 4:50 pm

Just keep a dollar in your wallet and save it. You won't walk out with an empty wallet ?

Set aside betting money, don't bring in your entire life's savings.

Don't rage/greed bet (i.e. betting \$500, losing it, and then betting hella money to get back the money you lost).

Learn to accept defeat, you'd rather lose \$50 and go home rather than lose it all.

Ah, to hell with it, you won't listen to me xD

Enjoy your time in the casino m9.

Play games against other people and not against the house. The house always wins.

Instead of going to the casino hire a hooker then rob her, full wallet man.

Just don't go or spend very little. Don't go overboard.

If you make money leave, #anyprofitisgoodprofit.

Only lost \$20 so it didn't go horrible.

Play a simple game like BJ.

Don't bet too much each round, leave at a certain percentage of profit/loss.

Don't be a cunt, get drunk and Lose all you money.

Only get drunk with the profit you've made :)

Vigor - June 28, 2015, 9:11 pm

Gotta risk money to win money. That is casino life.

Tokyo - June 28, 2015, 9:11 pm

Don't rage bet, that's a good tip.

TDIAL - June 28, 2015, 9:11 pm

Play a game of skill. I play poker. If you don't practice on your phone or on pc a lot youll probably get worked at a casino.

Best advice I've ever seen. I've done that on Primedice a few times when I lose.
