First: Which is better? Normal Naruto or Shippuden and what is different in Shippuden thats not in the normal one.

Thanks!

It shows that Naruto is way more mature , and not too much reckless as he was .And I won't tell you spoilers

Watch Naruto then watch Naruto Shippuden, Shippuden follows on from Naruto.

You can skip a load of episodes in the original Naruto though because it has a massive amount of filler. Just look up a filler guide.

YunoLawliet - June 29, 2015, 11:52 am

Naruto is boring, but it contains critical backstories to the characters from Shippuden.

If you will watch Shippuden without Naruto 1st season, you'll be missing half of everything.

Duyere - June 29, 2015, 1:20 pm

I'd watch Naruto first if you want to figure out why Naruto's been bitching about Sasuke this whole time.

NexPB - June 29, 2015, 1:28 pm

You have to see Naruto first it's a prequel.

Supremed - June 29, 2015, 7:04 pm

Yeah im watching naruto now i was just wondering the thoughts on shippuden and which was better.

Samesies - June 29, 2015, 7:21 pm

Naruto to start the series.

Skip the fillers in Naruto .

Shippuden is really good. You need to start of with naruto to get the back story of why he desperately chases Sasuke.

Shippuden also has fillers which you can skip past.

Follow the guide here to watch it both series without fillers.

Zero_Luffy - June 29, 2015, 7:23 pm

start with naruto,
then last u watch shippuden coz the story start with naruto

Minato Namikaze - June 29, 2015, 11:02 pm

Shippuden.
Far more characters and way bigger plot.
Also doesn't have 200 episodes of filler like Naruto xD

Anbu - June 30, 2015, 6:40 am

Why skip Naruto? It's before Naruto Shippuden. The fillers will confuse you then.

Avds - June 30, 2015, 7:10 am

Shippuden ofc, better fights and it's also the end of the series :D

Allow - June 30, 2015, 7:19 am

In all honesty, towards the ending of Naruto Shippuden. That is where it's best.

Watching Shippuden first is like trying to have sex with your pants still on. It's possible but very hard.

Pain - June 30, 2015, 8:35 am

I prefer Shippuden it's when all the action occurs and the plot is amazing, builds on, can't wait for new episode on Thursday we'll have fun.
Re watch the Nagato Paths of Pain part!

Gladly - June 30, 2015, 8:35 am

Shippuden has been pretty great so far, just skip through the filler and you'll enjoy it for sure.

Vouch, Pain arc was fucking amazing

WenEreh - July 1, 2015, 10:10 am

watch both the second one different from the first one ! it shows how Naruto changed and feels about the past and also how wonderful each character has developed !

Blue Moon - July 1, 2015, 6:51 pm

I always thought Naruto was very slow paced I sort of flew through the episodes, but when I went to shippuden and shit actually starts to happen that's when it really caught my attention.

penguinzss - July 2, 2015, 7:26 am

In shippuden naruto also learns quite a few new things! (Especially towards the end :3) Meanwhile in Naruto i think the only big thing he learned was his signature move

kakarot007 - July 2, 2015, 8:08 am

it is just a continuation of naruto mate :)

haroon158 - July 2, 2015, 5:39 pm

Naruto shippuden! But obviously you have to watch naruto or your just well... not going to understand anything!

Because Tsunades boobs are larger.

Kirit???o - July 2, 2015, 5:44 pm

watch naruto first than go to naruto shippuden so you can understand the story but make sure you

skip all the fillers xD

Not true really. Shippuden freaking recycles a whole bunch of scenes from Naruto so might as well skip the entire first show.

Kiyoshi - July 3, 2015, 4:18 pm

Naruto is more of an "backstory" which gives you a lot of shit you need to take in to understand shippuden more - which obviously make sense, since its the continuation of Naruto.

(Then again, with all the fillers they show in shippuden, you more or less don't need to watch Naruto *cough*)

Shippuden is more fun though, imo.

iSlickMods - July 3, 2015, 6:29 pm

I like Naruto, but I like shippuden better. A lot more is happening.

Coinage - July 4, 2015, 3:25 am

start with naruto shippuden is the following of it, you will miss the backstories if you don't watch naruto

darknessblade - July 5, 2015, 2:04 pm

naruto shippuuden is further in the story, naruto is now older, but still as stupid as he ever is.

its qutie good if you like longer ongoing series of anime, and you will be watching for more than 10-12 hours total to catch up
