he's scammer.

Perhaps you should try making a proper scam report so people can actually understand what's happening.

You're lying. the site has not been closed for 3 hours. You said about me when I say close to you.

Look;

When do you attack 17:00 pm, three hours have passed????

always on site. You said about me. I waited. You dont off site for 3 hours.

It was actually down, but you kept being a little bitch and kept spamming me and calling me a scammer for absolutely no reason at all. The attack started somewhere around 2:00 / 14:00 when you hit me up.

So why can I not see it? Also look at the hours you close the site.

There are not even 3 hours. You're still telling lies.

Add the user and his UID to the title, Op.

<http://prntscr.com/7nkskl> - I sent the money you at time. 15:20

There are not even 3 hours. You're still telling lies.

99.99% of the time I was trying to understand what you were actually trying to say. First you wanted to pay 30\$ for me to ddos a website for one week, then, you wanted to buy a botnet spot, and then you wanted me to ddos them for a short period of time (3 hours). Which is fine, I started the attack and it went down, until, you changed your mind and sent me another link, and kept doing that. When I said make up your mind he lost control, he started to spam me and calling me a scammer etc. I simply don't want to work with you when you have an attitude like that, even though the attack is over i'm still gonna solve this shit.

what i'm trying to say is; You got what you paid for. Simple as that

FredLeague - July 1, 2015, 9:05 am

It seems like OP is having a hard time speaking english properly.

OP I suggest you list everything you have in the OP, images, proof, PMs, and a receipt of the money you've sent to him.

Alpis - *July 1, 2015, 9:12 am*
