Thread: [Spotify: Download Playlist To Computer Mp3](#)

Platross - July 1, 2015, 1:22 pm

So basically I have a playlist of 476 songs on Spotify and I want to download them, Grooveshark is shut-down and I was wondering if anyone here knows how to get Spotify songs/playlist to mp3?

Playlist:

(Won't let me post URLS so here's the end of it

I believe this would fall under Copyright Infringement which isn't allowed on HF.

That playlist was just an example, of course anything I'd be converting would be things I have permission to from the producer. ;)

In that case after getting the permission from the producer you would have to download each song individually from elsewhere because you cant download the songs as MP3 via spotify, only an offline version if you have premium
