Thread: [Need 46,000 bots, who is a good seller and for what price?](#)

Mr Fox - July 1, 2015, 5:20 pm

Asking I have a few sellers i am interested in, please tell me if you know anyone.

For this large one try getting multiple sellers and use an MM, immortal's botshop seems fairly popular as well as hades'(idk about this one) try hitting either of them up.

Get like 12k from different sellers, (only trusted ones), make sure they give you loads straight from their EP. Some people scam and give you shitty updates/executions.

You need a good bot with a good executions rate.

Im offering also a botshop, but 46k bots wont be cheap at all.

fucking christ what do you need 50k for, anyway, try Bull, Immortal or Hades, they're all good sellers

Dont buy bots man better buy exploit kit and traffic ...

DethFromAbove - July 5, 2015, 3:02 pm

only buy 1-5k per order, i suggest bull or johnny.s, i have had 5000\$+ transactions with both of them....

I also sell bots if you really need them
