Thread: [ATTACH KEYLOGGER IN A FILE IN DROPBOX??](#)

minaiah07 - July 2, 2015, 5:17 am

Hey guys..was wondering if it is possible to attach a keylogger in a file(word,pdf,etc.) in Dropbox? Anyone?

LinkinLinked - July 2, 2015, 1:31 pm

I think you can replace it, bind it to The file and replace it

Anubis - July 2, 2015, 1:35 pm

In order to do that, you'll need to exploit the documents.

It's possible, but it's not easy.

This would be hard. Maybe try looking at the problem from a different angle:
how else can you get this nerd to run an executable?
