Get a live? How does that make sense?

Keep telling others I'm a rep whore, rating 1 star, even -rep from your buddy.. This is getting nowhere. I do not even care about REP. If I really want to get repped, I would give these passes to only upgraded members.

Why am I not allowed to have a thread like this? Like there are many different other and same service threads, why not a second thread for Crunchyroll passes? Thats why, get a live.

I will not respond to these childish shit. Just wanted to share you my thoughts.

OH:

And feel free to keep trashing this thread. I dont care if people get passes from your thread or mine. This thread is just an offer, for anyone :). It's just sad you talk rubbish about me.

Didn't one star and if you don't care about reo you wouldn't talk about it or whore out codes for rep lmao
