Thread: [\[Method\] Spreading method easy and free](#)

AzaRFlame - July 4, 2015, 7:14 am

Step 1:

Make a fake skype account and give it a good name and picture

Step 2

make a stub and crypt it after that go to any of these websites

++++addmecontacts----/skype_online.php

++++bestusernames----/

++++addmecontacts----/index.php

start adding them and tell them that your camera has stoped working and you wanna have some fun thats were your stub comes in send it to them and tell them to add you .
thats all you really need to know to get started ? ?

so go out there and get some slaves

ps add ,com were the lines are in the links and www, were the plus's are
Need more help? add me on skype sucourflamesplays
Thanks to Hitman

Thanks for releasing my method OP.

Jk i do this about 100-200 and hour . but I have private sites.

AzaRFlame - July 4, 2015, 7:18 am

hahah my mate just told me this method so i wanted to spread the word

matissshakeris - July 4, 2015, 10:23 am

Im doing this but i can't get them to download. If i use PIF then skype tells its virus by default :/. Or sometimes those morons arent even on pc. Any tips would be apreaciated, btw i ewhore too.

You stole my idea in a harmless way.

It wasn't your intention, but this isn't the way you should start on HF.

Try releasing something of your own instead of trying to get my method "known".

1.6 thousand people have already seen it ?

AzaRFlame - July 4, 2015, 10:38 am

i know it was not my invention zoomin at the bottom left in small writein is a thanks to hitman
