Thread: [\[Method\] Spreading Guide | Quick and Easy Slaves | Free TuT | Detailed Guide](#)

Decipher™ - July 4, 2015, 9:24 am

-Description-

Alright so for this Method we are going to be Using YouTube. Before you just leave and Call me Dumb and Old, We will not be Posting any Videos? We are going to be Comment on others Videos About are Product and why it is Much better. This is good because the people will see it in there little Notifications. Alright well i Hope you Guys enjoy this Little TUT. I made this for the People who wanna do Ratting and dont know a Good method. So i Hope you Guys enjoy?

-Step One-

Step one is you wanna Find something that people will want to download. Roblox Hacks, Clash of Clans Hack,H1Z1 Mods, Stuff like that do what is Hot or Something you know people are going to Download "Free Booter" is what we will be using for this TuT

-Step Two-

Alright so After you get what Program you wanna do. Just take your Stub Make sure it is At least 98% FUD! Then find or make a Small ass Program in Visual Basic. Or if your Crypter has Error Message use that. For the Error Message i use "Whoa Update your .NetFrame So you can run this Program" Or something like that. After you do that Make your Crypted Stub.

-Step Three-

Alright now Upload your Crypted Stub to a Download website. Then Shorten your link with What ever Site you want. That makes the Download look more Safe. If you wanna make a Little Cash while your At it. You can use a Ad link for the Download. Like Adfly, Alright now go on around 20 Videos and Comment Something like this "Here is my "PROGRAM" and it work Good i bought it a While ago." Something so Simple as that will get you Alot of Downloads. Then just do this for alot of Videos and also Reply to others Comments and Shit. Enjoy your Slaves!?

-Hope you guys Enjoyed-

Hope you guys liked this Short little TuT I hope this helped anybody that wants some Quick Slaves. Have a Great Spreading time and remember Infect the World?
