fix your link man before you get flamed for it lol
256 is not bad but if you really wanna have a good storage unit try bull bullion home servers man
they are pretty bomb in my eyes

it's fake. so be careful with buying these items on Amazon

MoveOn - July 5, 2015, 12:20 am

Check the reviews bro, almost all of them are 1 stars.

Deany - July 5, 2015, 12:22 am

Lol why hasn't it been removed from the amazon directory if it's fake? Amazon CS ???

Five-Seven - July 5, 2015, 12:23 am

Reviews are too shitty and sketchy, but it's on Amazon, do they not have any buyer protection?

Abstractive - July 5, 2015, 12:32 am

\$15.97 32GB, \$18.99 64GB and \$13.95 256GB.
Sketchy as fuck. Would not buy.
