Do you expect this to be undetected as long as your other cheat? I would want to use this on my main.

Rayner - August 4, 2015, 10:32 pm

Do we get the source to the hack?

None of my cheats have been detected, from first build to this current date.

I will not be providing the source.

But if you'd like, I can create something similar for you and provide the source.
