xxaluna - July 8, 2015, 7:53 pm

a little dark for me but I love your style !

VIPhiggz10 - July 10, 2015, 7:30 am

Love the flat style very modern and the clip idea was a nice touch. KIU!

Abhax - July 10, 2015, 11:07 am

Pros:

- 1: Very nice work with the FLAT style
- 2: Nice color contrast (Background, & Moon)
- 3: Nice choice of fonts

Cons:

- 1: The text is too clustered together, you need to leave more whitespace.
- 2: The red doesn't blend very well with anything, consider using a FLAT red such as (#e74c3c)

Overall: 6/10

If the text wasn't clustered it would be a 8/10+

nice and modern looking style! ;)

Buzz Lightyear - July 14, 2015, 6:26 pm

Make it a hierarchy of sorts. My eyes go all over the page, and don't know where to look. It should be designed in a way that everyone can see follow it easily.

KingUnbound - July 14, 2015, 7:22 pm

very clean. i like it. would change some colors up but still very nice

Fusi - July 14, 2015, 8:57 pm

I like your style bruhh. The colors were ON POINT and everything else was pretty nice!

Pretty design! awesome, good job 10/10

HFXeus - July 19, 2015, 3:26 pm

It's really clean, and I love the creativity with the laptop, but I figure that some more space vertically with the text would help me eyes :)

Savage Matt - July 19, 2015, 11:59 pm

Looks perfect man, Good job!

abmenzel - July 20, 2015, 11:35 am

I like it. Although like others have said, it's a bit clustered with the text in the center.

Lynch. - July 20, 2015, 12:51 pm
