idontstealwifi - July 7, 2015, 7:21 pm

do you guys have any easy payment methods other than paypal? im done with them theyve taken 2,000+ from me in limited accounts. i've used venmo and snapcash and those are GREAT but snapcash only allows 1000 a month if you dont add your ssn and venmo just froze my acc because it noticed i was getting too much money (venmo is good while it lasts) but are there any other methods? i make around 1000-2000 from ewhoring week so i need a new way ASAP. If you can help me out i would not mind sharing my methods on how to get 100-200 new guys to talk to everyday and making 1000-2000 a week. cant send pms yet so kik : AlexGBusiness

You can try using the paysafecard, since you can ask for a paysafecard credit card for 10€ / year, you get the paysafecard pin, you load ur paysafe with the pin, you get the money, paysafe acc is synced with the mastercard card, you withdraw!

Sell your AGC to someone on HF, such as Themis; Get BTC, and sell that on localbitcoin or something. That's my method right now.

Purse.io is a borderline scam. They literally take half of the gift card value.
