Slan - Account Cracking mentor

I will teach you all you need to know to start cracking online accounts.

I will teach you how to use Sentry MBA to crack accounts.

I will give a brief tutorial on Sentry MBA config creation.

I will teach you everything you need to know to gather quality combolists using SQL dumper.

I will give you a basic understanding on how we use dorks to find vulnerable sites and gather combos.

I will teach you how to easily get proxies for free thats works perfectly for Sentry cracking, instead of purchasing proxies that are gonna die out anyways or get banned.

Requirements:

Teamviewer

Sentry MBA, SQL Dumper.

(I can provide the tools if you dont got them)

Price:

15\$ for Full Mentoring, I will do this over several sessions if needed!

(Sentry MBA cracking, SQL dumper combolist gathering, Sentry MBA config creation, proxies, Dorks)

Contact:

slan@dukgo.com

slan@podso.net = XMPP

PM / POST

Terms of Service:

I do this for educational purposes

I do not provide any refunds

(If you did not learn anything I can provide a partial refund in some situations)

I need payment upfront and I only accept BTC/Skrill

I mentor in sessions on teamviewer.

"15\$ for SQL Dumper / Dorks" what do you mean by this ? both are free so why I do i need to pay \$15 for this?

I thought about removing that option and only doing the full mentoring.

but some already know how to crack accounts.

but they always purchase combolists, so I want to show those users how to easily do it themself.

Thanks for asking!?

hello im me - July 19, 2015, 7:22 am

Do you cover how to make configs with API, OCR and variables?

And will you teach us how to manually dump the vulnerable sites in SQL dumper?

Not API/Variables no.

but I can show you the OCR stage.

I will teach you how to use sql dumper yes.(Including how to export to email:pass or user:pass)
