Tokyo, Japan

FAQ ([Click to View](#))

Question: Where are your terms of service located?

Answer: Please visit our knowledge base at [billing.drvpn.pw](#)

Question: What is this " Simultaneous Connections " thing?

Answer: Simultaneous connections is the number of connections on ANY of our servers at once. For example trial users only have a simultaneous connection of 1, this means they can only be using ONE connection to any of our servers at once, if a trial user uses their desktop to connect and then attempts to do the same with their laptop while connected through their desktop they will receive an AUTH error as an excuse from the system as the system will reject the connection. If you will be connecting through multiple devices at once lifetime with 10 simultaneous connections are suggested. If you would like to increase the connection limit for your account it is \$2 / connection increase.

Conceal - July 8, 2015, 5:31 pm

Vouch for RedSox & DrVPN.

illuminati? - July 8, 2015, 5:34 pm

Vouch for Red Cox & Dr. VPN

Good Luck With Sales Brother!

XpertGaming - July 8, 2015, 6:13 pm

The lifetime sale ended... I was about to buy.

Red S?x - July 9, 2015, 4:31 am

all pm's replied to. be on the lookout for additional servers in the next couple weeks.

new servers coming soon. pm me or hallucinating with any questions/concerns.

tacoman_71 - July 15, 2015, 7:42 pm

So no new updates in a while after the sale. That's assuring. What about the old customers?

lewisg743 - August 1, 2015, 8:22 pm

Wasn't even notified about the transaction, guess ill just have to get my money back as the ToS has been void :/

Supreme.tm - August 7, 2015, 6:24 am

How can I use this VPN on ubuntu?

GolZilla - August 16, 2015, 2:52 pm

Website seems to be down...

guycheap - August 16, 2015, 3:33 pm

Vouch for these two faggots. Seems like they forgot to change my email lol. I assume Red Sox is going to change it later. These guys purchased Dr. VPN great guys and I know their interest is in the customer not their profit. I'll be helping these guys whenever needed behind the scenes :).

Night Crawler - *August 20, 2015, 7:27 am*

may be help them to get the service back to working order?

juanpirata - *August 20, 2015, 10:28 am*

Error 522 Ray ID: 218fcf7c526407b5 • 2015-08-20 17:27:58 UTC

Connection timed out

Doesnt work!
