Hey HF members.

Just deciding to give back to the community. I enjoy it here, and I'm probably here to stay for a while now, so I thought I'd throw a little contest for anyone who wants to upgrade to L33T or UB3R.

Accepting entries until July 24th.

Winners will be selected after the 24th and announced on July 31st (end of month). I will then contact each winner and upgrade their account.

Current entries:

Last updated: 7/29/2015 2:07 AM EST

[Vaxorr](#) from [Limited Edition](#) [Removed]
[Bagon](#) from [D?niel](#)
[Homi](#) from [Royal !](#)
[iReFuSe2LoSe](#) from [iHaX™](#) [Removed]
[Geass](#) from [Novica](#)
[gtasa720](#) from [Support™](#)
[Headdy](#) from [Evocati](#)

Pre-requirements:

Absolutely no scam reports and no multi-accounters.
If you have a high warning %, it makes me nervous.

For non-members wishing to upgrade to L33T:

Minumum 300* mostly HQ posts.

Positive rep, the higher the better

Joined at least over a year ago.

For L33T members wishing to upgrade to UB3R:

Must already be approved, obviously.

Minimum 500* mostly HQ posts.

Member for 2+ years.

HQ member overall. I will be inspecting each entry.

Also, I'll be actually looking at your rep to see what people think.

* If you're close, I may overlook this.

So, to enter the contest, let me know why you should be upgraded. Maybe provide a link to an HQ thread you made or a service/product you're offering that upgrading would assist you with.

If I accept your reasons, you will be added to the list above, which will be updated (hopefully) once a day until the 24th. Then I will generate numbers from random.org until I have 10 unique numbers. Of these numbers, the corresponding users will be notified and upgraded to the next level.

Bonus: If an Ub3r member vouches for you, I will add your name to the drawing twice (this does not stack).

I will decline any member that I do not think provided a good enough reason or is not HQ judging by their profile/posts. I may or may not give a reason for doing so.

Good luck.

Geass - July 9, 2015, 3:30 am

I will try my luck and enter in your contest :D

I am daily active on the forum and would love to get uber, I have made 2 giveaways for getting steam games methods but for some reason got deleted (probably forbidden) and couple more, I am interested more for the upgrade to be able sell accounts and to be able to create threads on Currency Exchange to buy/sell btc. Already got approved for uber upgrade by Omni. thanks!!

edit: sorry for my english...

You need to meet the minimum requirements to participate in this contest.

I'm not 2 years here :)

I've somewhat assisted Sonex in MT section to move it from referral link spamboard to decent discussion which sort of happened.

I've somewhat rude, but usually have a point.

I'm not sure if I deserve UB3R or not. And it's not that important to me.

I've put some effort to help some people so if You don't have enough good adepts here for upgrade, you might upgrade me.

I'm not sure Omni would approve if I had ways around the process. Might be perma-ban territory.

To be quite honest, I don't think you should have it. You have tons of negative reviews, heavily outweighing the positive, and 50% warning suggests you might get banned before this contest even ends.

Be a better member and maybe you'll be considered in one of the future contests.

The neg rep is really old. The other one is because a gameseller got butthurt and the other 3 ones were because Understalker got mad because he was ddosing a site. But its your contest, so im okay with it.

Time Spent Online: 1 Day, 10 Hours, 23 Minutes, 51 Seconds

Also, I've been a member for 6+ years. I've slacked off a lot in regards to activity, and as a result I feel as though there are a lot of people out here that have shown more commitment than I have that deserve to be upgraded. I'm not looking for people that had the same subpar activity that I've had.

Why i Should be upgraded : well, i've been active in the forums since 2013 either hiding in the shadows, helping people or just chilling out, i've made alot (i mean ALOT) of tutorials and giveaways since my registry date, i've always helped members that needed help.

Why i want the Upgrade: UB3R have some nice perks that i really need in my forum browsing basis, as i have always wanted to sell in the Non-Free accounts section, also i want the ability to junk my old threads which i couldn't, being an UB3R also is going to provide extra security like 2-FA or Country Lock.

No problem. Good luck to the contestants entered already. Only two weeks left until the entries will be closed.

Then I will re-evaluate all of the entries to make sure everyone is still active / HQ, assign each member to a number (probably in order), and generate the 10 random numbers. Upgrades will be announced / given out on July 31st. Stay tuned.

My posts are for the most part helpful, and benefit someone else in one way or another.

I've not been a member for two years, but I'll hope you'll overlook that.

I'm currently in the process of being approved for Ub3r.

Thanks for reading this, hope I win.

Sorry I don't think I can do that. Looking at the last 3+ pages of your posting history is just you asking for handouts. If you're going to apply without meeting one of the requirements, I kind of expect you to be HQ in the others.

Very generous of you man.

Too bad the gift award is not up for grabs as well, Id enter for that.

Best of luck to all of those who enter. ?

Must already be approved, obviously. Approval is ongoing (didn't need it yet, so I just started the procedure).

Minimum 500* mostly HQ posts. 1.6k+, mostly HQ.

Also, I'll be actually looking at your rep to see what people think. They think I'm a helpful and HQ user.

no harm in trying

I want to be able to:

- Change my username from this current one
- Be able to edit threads and posts past the limit
- Give out rep when I feel someone deserves it

I meet the requirements, but I guess I should try explaining my rep.

negs (oldest to newest) ([Click to View](#))

I definitely deserved it and can't make excuses, I was an ass when I first joined the forum.

Same as first one.

Don't even know what this means lmao

I got pissed off at the guy for telling another member off for something that they did when they weren't in the wrong. I guess I was too rude?

He was being pretty rude to someone else in one of my discussion threads and they kept going back and forth with each other, I said to stop or take it somewhere else and then I got that one. I was probably too hostile, can't check back since staff deleted the posts.

neutrals (^) ([Click to View](#))

Pretty self-explanatory, but a guy asked for tips on stealing and I gave him them. That's what I get.

The guy kept posting LQ threads in the anime section and I gave him shit for it.

I can't really remember, it was probably a similar situation to the second one.

I don't know if you consider this HQ or not, but it's the only 1 of 4 threads I'd even consider. The other 3 are just discussion threads for shows, they all use pretty much the same format just with different information. If you're gonna look at any of the other 3 you might as well just look at this one: [\[Discussion\] Akagami no Shirayuki-hime](#)

Really appreciate that you are giving back to this great community.

Been on HF for about 4 years now, learned a lot from this place, met some great people and earned some money too :)

I won my l33t in a competition by that group 143, been approved for Ub3r but don't have that much cash in my pocket because our currency value is too little.

I have never had a scam report in my life here on HF, I believe in honest living :)

I am the coder and owner of H-Keylogger which has about 150+ happy customers, here is a past sales thread

<https://hackforums.net/showthread.php?tid=3857209>

I gave away about 100 copies of my FUD keylogger to all members on HF

<https://hackforums.net/showthread.php?tid=3077333>

also held a competition for a FUD copy of H-Keylogger (cost about 20\$ at that time)

<https://hackforums.net/showthread.php?tid=3882885>

Was part of group called Guardians and helped many people through their help desk

<https://hackforums.net/showthread.php?tid=3461850>

Made a very detailed FAQs for newbies about keylogger which had about 11000 views and a lot of members benefited from it

<https://hackforums.net/showthread.php?tid=3379490>

Here are few giveaways i did

and that is it..

Best of luck to all the members, hope I get to win this.

I'd love to enter in on this for an Ub3r upgrade.

I would like to think that my profile fits all of your requirements.

I'm not a huge thread creator or service holder, but I'm an avid lurker and post fairly often on things I feel I can contribute to.

So no, I don't have some massive sales thread or anything, but I do spend a lot of time on here and being upgraded would only make my experience on the site even better.

Regardless of whether I am selected or not, this is an amazing giveaway for the community.

I'm looking to enter for the L33T upgrade. Before I get into any details I will like to thank you for having such a giveaway (regardless if you accept my reasons or not), and to also wish everyone who is trying to enter a simple good luck!

Here is the short form of the requirements with also the results;Minumum 300* mostly HQ posts.

I currently have 748 (not including this post at all).Positive rep, the higher the better

I currently have a rep of 17.Joined at least over a year ago.

I joined this community back in November of 2012 (I was mostly lurking and inactive throughout the years, however I've had a fairly active trend this past year or two).

I do not have any real HQ topics that I have created myself, however I will say that I try to stick towards the Web/Tech area when giving any help, and I'm sure that most of my posts will reflect me trying to help the various people in those forums.

I mostly believe that having L33T would benefit me for various reasons. Some of these reasons will include being able to show others who help me (or those in need in the various forums I stay towards) when they were helpful from the get-go, to be able to access the various other member forums that I currently do not have access to, and also to be able to be more active in the community by being able to have a slight bigger presence.

Hey, I understand that I don't yet meet the post requirements just yet, am a little off... But I would love to enter to become L33T, I've contributed much to the forum, for example I have given out a great deal on a windows VPS for people in my thread located below. And I have also given out an eBook on how to make \$100 a day which some people took into consideration and hopefully tried out the method, so in conclusion I'm a high quality member and I'm going to give more stuff out to the community and help more members with issues as I always do. I will be contributing more in the coming days, but I wish to thank you for giving me the opportunity.

NigeL_xD - July 16, 2015, 12:07 pm

Why do you deserve L33T?

So why do I actually deserve L33T? I deserve L33T because I've been helping people rating graphics, and via PM I even donated a few dollars to some people who was in need of it. I haven't made any threads yet, due to because I'm new and my friend advised this forum to me, the reason he advised me to this forum is because I asked him do you know any good forums that has a section about coding etc and that's how I got into HackForums. I also want to be L33T in order to +1 and neutral people that deserve it. The reason I also want to be L33T is because I want to edit my posts and close my threads, I also want to be available to make a thread in the "Member section". I might be new but I actually have some skills and I will come into that later. If I can get L33T I will get the ability to change avatar and pretty much everything else, such as the Private Message limit.

What is your currently skills online?

The best thing I love to do online is coding and editing. The programming language I know so far is C++ and a little bit of Java, I'm currently learning Python. When you learn C++ it's easy to spot once you get the hang of it learning it took me a while (11 months), I know that's long but believe me I had fun while learning C++. The skills I have is not only coding but a little bit GFX such as making HQ texts and 3D texts with Cinema 3D & Photoshop. I also edit videos with the program Sony Vegas 12 Pro. What I spend my time on after college is actually homework , coding , gaming (a little bit) , editing videos. The first thing I do is always homework since that's the first priority for me.

HackForums helped me very much learning a little bit of Python, there is some source codes some people made I learnt a few things of them, I really do appreciate to be on HF. And that's the basically skills I know of and that's the thing I wanted to write.

Anything else you would like to add?

I dont have 300 post but i will get it soon,this application was meant to be enjoyed, so I hope you've enjoyed it. I would like to write to you that this is very kind of you making such a nice contribution back to the HF community. I'm new and I've already experienced nice people here on HackForums and the best lovely section for me, of course the coding section <3. Thank you for this, even if I don't win thank you. I wish everyone good luck!

I'm entering for Ub3r. I've been here for 2+ years of time.

I've been pretty active the last few months. I tried to help people out, be a good member and have fun.

If I need to name a few features of UB3R I really need, it would be:

-PM Quota

-2FA (I put security at a high level. I do not like being hacked, I've never been hacked on HF but I prefer to lower my risks.)

Anyways, I would be really happy if you upgraded me. I'm trying to be as nice as possible and I help where I can, even without being paid.

I want to thank you for being so nice to host a contest. I do meet all requirements, but if you want to see my approval, please send me a message.

Good luck to everyone.

Regards,

Headdy

I've been pretty active the last few months. I tried to help people out, be a good member and have fun.

If I need to name a few features of UB3R I really need, it would be:

-PM Quota

-2FA (I put security at a high level. I do not like being hacked, I've never been hacked on HF but I prefer to lower my risks.)

Anyways, I would be really happy if you upgraded me. I'm trying to be as nice as possible and I help where I can, even without being paid.

I want to thank you for being so nice to host a contest. I do meet all requirements, but if you want to see my approval, please send me a message.

Good luck to everyone.

Regards,

Headdy

I can vouch for Headdy, always helped me out in my times of need, great member of HF

Good luck to all the participants :)

glitchgxd - July 24, 2015, 1:39 pm

By the way, I haven't DQ'd anyone in the recent day or two, I just haven't added them to the entries yet. I'll be doing that next week as well as selecting winners through random.org.

I should be upgraded because I don't know.. It feels way nicer if I get an upgrade by someone. I just don't want to buy me that title myself. I stream a lot of people to learn them how to earn money with E-whoring aswell.

Great contest!

I am very happy for winning this :)

Congratulations to all the winners.

Thanks a lot Glitch, this was really generous of you upgrading about 10 members. Really HQ member.

All winners' accounts have been upgraded. See for yourself (color code corresponds to what they were before their upgrade, so their profile is now one level higher.
