Thread: [How much?](#)

Chinx - July 9, 2015, 1:10 pm

I was curious on how much could I charge for hacking Twitter & Facebook accounts?

Few of my rules:

- Account must be active
- Cannot be a huge celebrity

I would like two different pricings preferably:

- Price for hacking account (not securing that will be buyers job)
- Price for hacking & securing the account.

Thank you to anyone who can give me their opinion on how much I can charge.

You should do a chart with "Famous Accounts" and "Normal Accounts"

Famous accounts around 75 dollar and normal accounts for 50 dollar. Everything depending on the account tho.

It depends on the account and how likely you are to get it. Most celebrity accounts get pulled back easily anyways. It's honestly hard to give a price based on your unknown ability.

I know they get pulled back easily which is why in my service I won't do it. Also with regular peoples account I usually have about an 7-8/10 chance of accessing the account with no problem. In the case of not being able to access one I was thinking of doing something like a full refund & basically a free be for hacking another account of their choice. (If that doesn't sound ridiculous lol)

Looking for a few more price ranges, doesn't have to be one solid price. Just looking for a range to set this at.

Would you charge more based on size of the account?

80 for a normal account.

i wouldn't fuck around with big accounts, they always seem to get pulled back.

80, or depending on the username, maybe more.

Deal with caution when dealing with this user, scammed me out of \$65.

Well the thing is I paid \$15 to this guy to hack into this girls account but he never did it or messaged back after I sent the money, this was on July 11th. So I don't know if you guys can trust him too.
