MMORPG anime are awesome.

Aura - July 10, 2015, 3:13 pm

Log Horizon and Sword Art Online are probably my two favorite Anime and I hope that they make more MMORPG Anime like these ?

Duyere - July 10, 2015, 3:21 pm

I made it to around episode 10 while season 1 was still airing, couldn't bring myself to continue watching it.

I might pick it up again in the future but back then I was simply not feeling the vibe from it.

Didn't really like it as much as sao i finished the first season but didn't like it much.

Aura - July 10, 2015, 7:51 pm

I'll be starting Overlord this weekend, yes ?

Lone - July 10, 2015, 8:43 pm

On season 2 like episode 10 it has been really good so far, my only gripe with it is some time a few episodes are super slow and I get discouraged to watch more of it but the experience over all has been good.

KyHax - July 11, 2015, 5:26 pm

Only on Episode 14, best anime I have seen and some parts of it actually make me laugh. :P Anyway, have fun watching it. I sure am!

Annoited - July 11, 2015, 5:44 pm

I almost finished the first season.. but it got really boring. But now everyone saying it's pretty good, should I re watch?

Esdese - July 11, 2015, 8:38 pm

You guys seriously find it that interesting? Don't get me wrong, SAO is in my top 3, but I haven't finished an anime in 2 1/2 weeks because of Log Horizon.

I find myself watching like 1-2 episodes a day because of how boring it is.

Nevieth - July 11, 2015, 8:40 pm

Log Horizon is a great fantasy game anime, it definitely concentrates heavily on politics and strategy of things.

If you want another video game anime that probably wont suck, try out Overlord. First episode is out now, the main character is a fucking skele-kun. Not only that but he's pretty much considered the villain throughout the world.

gamersgodly11 - July 12, 2015, 5:59 am

The graphics of the anime are soo good

Freack100 - July 13, 2015, 11:53 am

Log Horizon kinda makes me remember No Game No Life. But I think NGNL got more "mindfuck" moments (like at the end, when you realize that Shiro is the FPS king, and not Sora. Or when Steph won the game o.O. These math skills...)
