Thread: [Equestrifun Minecraft Server Griefed - Horse servers beware](#)

Yaweh - July 10, 2015, 10:23 am

We've hated this server for ages and it was the last horse server which we hadn't griefed. The video turned out really well in my opinion.

Such Grief, Such Wow, Such Minecraft
-Minecraft Doge

PhoenixDoom - July 10, 2015, 10:57 am

why is the video all mellow and orange, it reminds me of those decade old movies about life in the ghetto

The Mafia - July 10, 2015, 10:58 am

is that flu.x you were using while recording?

Ethan - July 10, 2015, 12:59 pm

Pretty good. thanks for the share, we need more actual griefing in this section. not sure how i feel about the filter though.

Horse Server, My god.

And I thought Minecraft was fucked up before this.

Dat \$tick - July 10, 2015, 2:00 pm

Do you actually find pleasure in doing this? That's quite worrying...

Anodise - July 10, 2015, 2:15 pm

German efficiency - nice xD. This was a good watch.

BFCE - July 10, 2015, 2:18 pm

This no yak-server. Destroy!!!!
Oh god I'm lame.

Black?jack - July 10, 2015, 4:17 pm

Wait, what the fuck is a horse server?

I thought you meant MLP servers and I was like "OK, nothing new", but then I Googled the name of this server and I was like "wat"

Please explain

It's a roleplaying server for people who ride horses in real life. They ride horses in the game and make stables and do horse jumping events. They're technically called "Equestrian Servers".

They take it really seriously. We accidentally drowned a few of their horses in this video and we've been receiving death threats for it. Horse servers are hotspots for noobs so we're not really worried about anybody killing Yawk members anytime soon, their threats are hilarious and have all been self-deleted due to embarrassment.

irageurface - July 11, 2015, 4:22 am

what hack client are you using?

A server full of mostly young individuals who can or cannot ride horses in real life and also want to experience it in an online video game.

scaryguy12 - July 11, 2015, 9:12 am

this is a server you haven't grieved

162.223.8.164

its a horse server

It's called Yawk Client. We're probably gonna release it in a few weeks.

PotatoButt - August 8, 2015, 9:39 pm

Omg. I'd need you to grieve it again. I love equestrian servers but omfg those mods and admins are shit! They were treating me like a pile of shit and unraked me because I was "Mean" by saying what I was thinking. I tried to DDoS them but a GENIOUS told them. I'd love it if you could do the job for me again please <3 Thank you. -An ex equestrian

We're planning on attacking them again pretty soon. It'll be in a more subtle way this time. But yeah, they're totally crazy.

Well that was a quality grief.

This is actually my server - awkward. I'll try to explain it to you guys. An Equestrian is someone who usually owns a horse in real life, cares for it, competes it, etc like myself. This is a daily task which takes up around 2 hours per day so yes, you become very attached to your horse kind of like a pet dog I guess, except they're alot my dangerous. So I thought, a lot of kids don't have money or time for a horse as they do cost a lot of money as upkeep so I created a server for younger players to

learn about horses and see the responsibility of owning a horse. Yes, most of my players average around the age of 14 but it has helped people to understand horses better.

I admit we were the first server like this, so we started the boom in equestrian servers which is regrettable, seeing as most are ran by 12 year old girls who don't even know what Java is lmao. Hopefully that made a little more sense?

Even if it does make any sense, I can guarantee you members of this section do not give a single fuck and will still grief your server.

Yeah, maybe I don't know what Java is... But one thing I REALLY don't know, is why you would steal kids's money with your minecraft server. Oh, because you want that 500\$/month to pay for your horse? That 500\$ that come from a server not even considered a company?
