There use to be a section called Gay Fuckign Request or something like that where I would get free netflix...What happened to it and would this be the right place to ask for a netflix account lol?

Here you cant ask for anything, just pots in a thread with a giveaway if is relevant with your search/needs.

Try here [Rewards and Small Favors](#)

edit

or here but not free [Buyers Bay](#)

The whole vip section was removed because of too much LQ content.

The whole VIP tab has been removed.

You are not allowed to ask for non-free accounts such as Netflix in the Giveaways section, because

1) Everything related to non-free accounts belong in [their dedicated section](#)

2) It is no longer allowed to ask for free things.

If you are willing to pay a small reward to whoever gets you what you need, you can post in [Rewards and Small Favors](#) or [Buyer's Bay](#) (Where non-free accounts aren't allowed to be discussed either).
