Thread: [\[TUT\] How To Make A Flat Design Signature \[DETAILED TUT\]\[PHOTOSHOP\]](#)

Ricy - July 11, 2015, 10:34 am

Hello guys, in this Tutorial I am going to teach you how to make a clean , fresh , modern , flat looking signature to promote a thread!

Requirements :Basic knowledge of Photoshop

Tools needed for this Tutorial : Photoshop

Difficulty :
2/5

Creativity :
2/5

Let's begin!

1. Make a new photoshop file with these resolutions : 500 px x 200 px

2. Go to <http://flatuicolors.com/> And stick with the colors on this site!

(small demo)

3. Go to <http://www.dafont.com/theme.php?cat=501> And choose a good Flat design Font.
(I prefer)

- Dense
- quicksand
- Geo sans light

4. Select the whole image and fill it with

5. Make the base. add a top border .

- I suggest you to put featurings in the top border.

6. Add a header text!

7. Make a box with Get it now![/b]

8. Change footer color

9. Add a strong slogan under the header

10. Decorate it, Give it a twist , add a patern to the background

Did you like the Tutorial ? That's awesome!

Did you made your own? Send it in the comments ! please ! :)

I loved to create this thread !

This is a nice tutorial for beginners to start making nice looking signatures, but you shouldn't specify adding a top bar or not. It's a nice design for some things, but being creative is all about doing new things.

Regardless, nice tutorial, i'd just like to make a note that I think this should be used as a basic starter reference and not following it step by step, since everything should be unique.
