Thread: [Xbox Spam Service \(Pay for Super OP message Spam\)](#)

Sennheiser - July 11, 2015, 7:50 pm

I am selling a Message spam service, super cheap.

I am using a bunch of gold accounts to do this :)

cool af am i rite?

I will post a recording later :)

Prices Go as followed

\$2 - 50 Messages (Will annoy the hell out of someone)

\$4 - 100 messages (Annoying as fuck spam, glitch friends messages so the notifications come back)

\$6 - 200 messages (might freeze account, glitch messages)

\$8 - 300 Messages (can actually freeze account, glitch messages, possible ban if reported)

Bitcoin Only

Why buy this when I can do it?

umm, its not manually sending one message at a time

no no no no, it literally sends 50 messages in one second, instantly

blocking the account is pointless, as they all appear instantly

i have multiple accounts meaning, I send 50 messages per account, so I would use 6 accounts to spam 300 messages.

Why do it though? it is annoying to someone, and if they get too much, they won't be able to receive messages from friends for a bit.

Fun for live streams :)

Huge vouch for Sennheiser.

This shit is just awesome.

I might buy some day.

Vynide - January 18, 2016, 3:58 am

Are you actually charging for this kind of service? There are FREE programs out that such as Xbox Crawler. (That's probably what you are using)

I would never expect this from a well known user. ?

xbox crawler is a piece of shit Imfao

spams 1 message a second while this does 20-30 a second

I can vouch it's shit. Not going deny it.

A Notification comes up for about 3-5 seconds. 30 seconds for 30 messages is better then nothing. There are other bots out there that are free that is better then xbox crawler. I know what it's like to be spammed. I'm a modder my self.

But Selling this? Really?
