Thread: [Looking for a good coder to change my Minecraft ghost client.](#)

Shinxe - July 12, 2015, 1:09 pm

Send me a PM. The job will be hard but I'm offering a CSGO alt for it.

Yeah I can do this for you, just PM me the details and a link to the client.

And so why doesn't he do this for you? I am a million times better than that bucktoothed skid at everything.

Check your PMs. If you do as I asked you will be majorly rewarded!

Dan K - July 12, 2015, 5:05 pm

Update: OP is trying to get me to write him a client and expects to pay/'reward' me after. Didn't even give me the jar to edit, just asked for me to write some new software.

Tread with caution.

As if this sounded even 1% legit in the first place.
